

myCondo

serving all your needs in condominium living

Condo management made easy
with **myCondo App**

myCondo

serving all your needs in condominium living

Company Profile

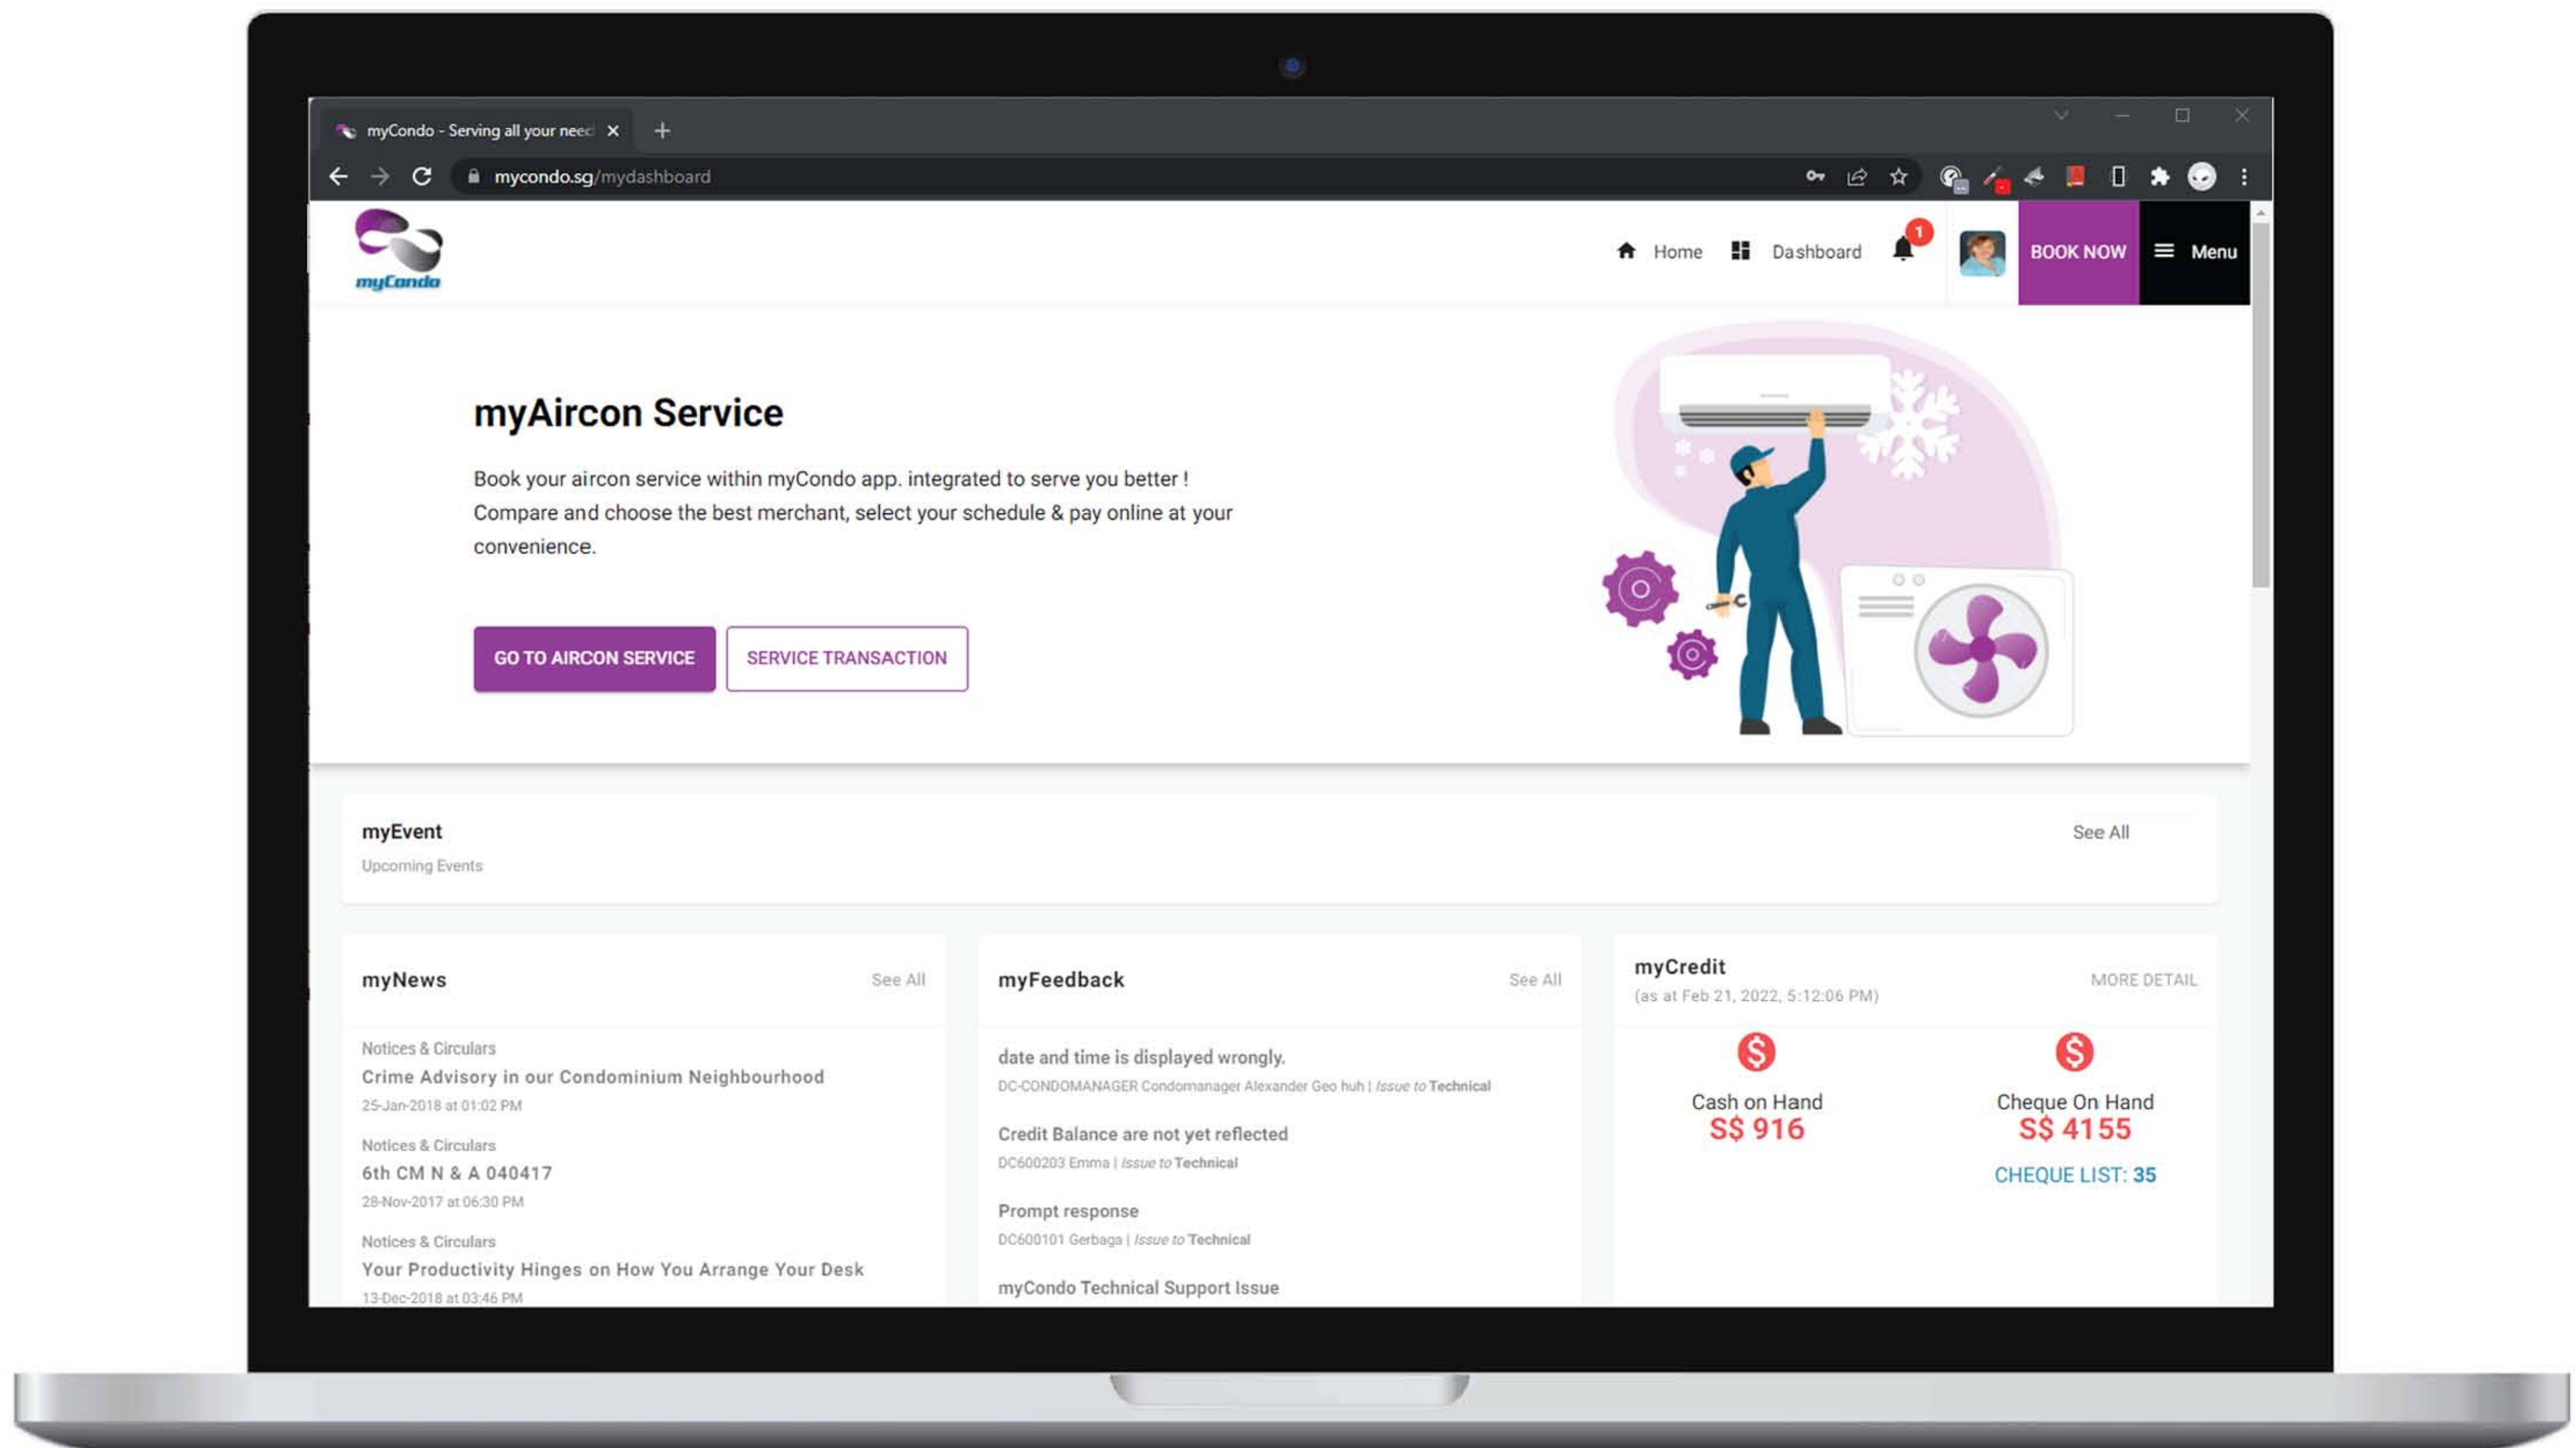

myCondo was established and started software development in 2007 with a vision to use technology to serve all your needs in condominium living.

What We Do

myCondo develops Software-as-a-Service with online applications running on a shared infrastructure for all condominiums to leverage on, gain benefits and save cost.

Why Choose Us

We've the drive to induce change for a better future by leveraging on technologies to bring about productivity in managing a condominium, providing better communication and experiences for all residents.

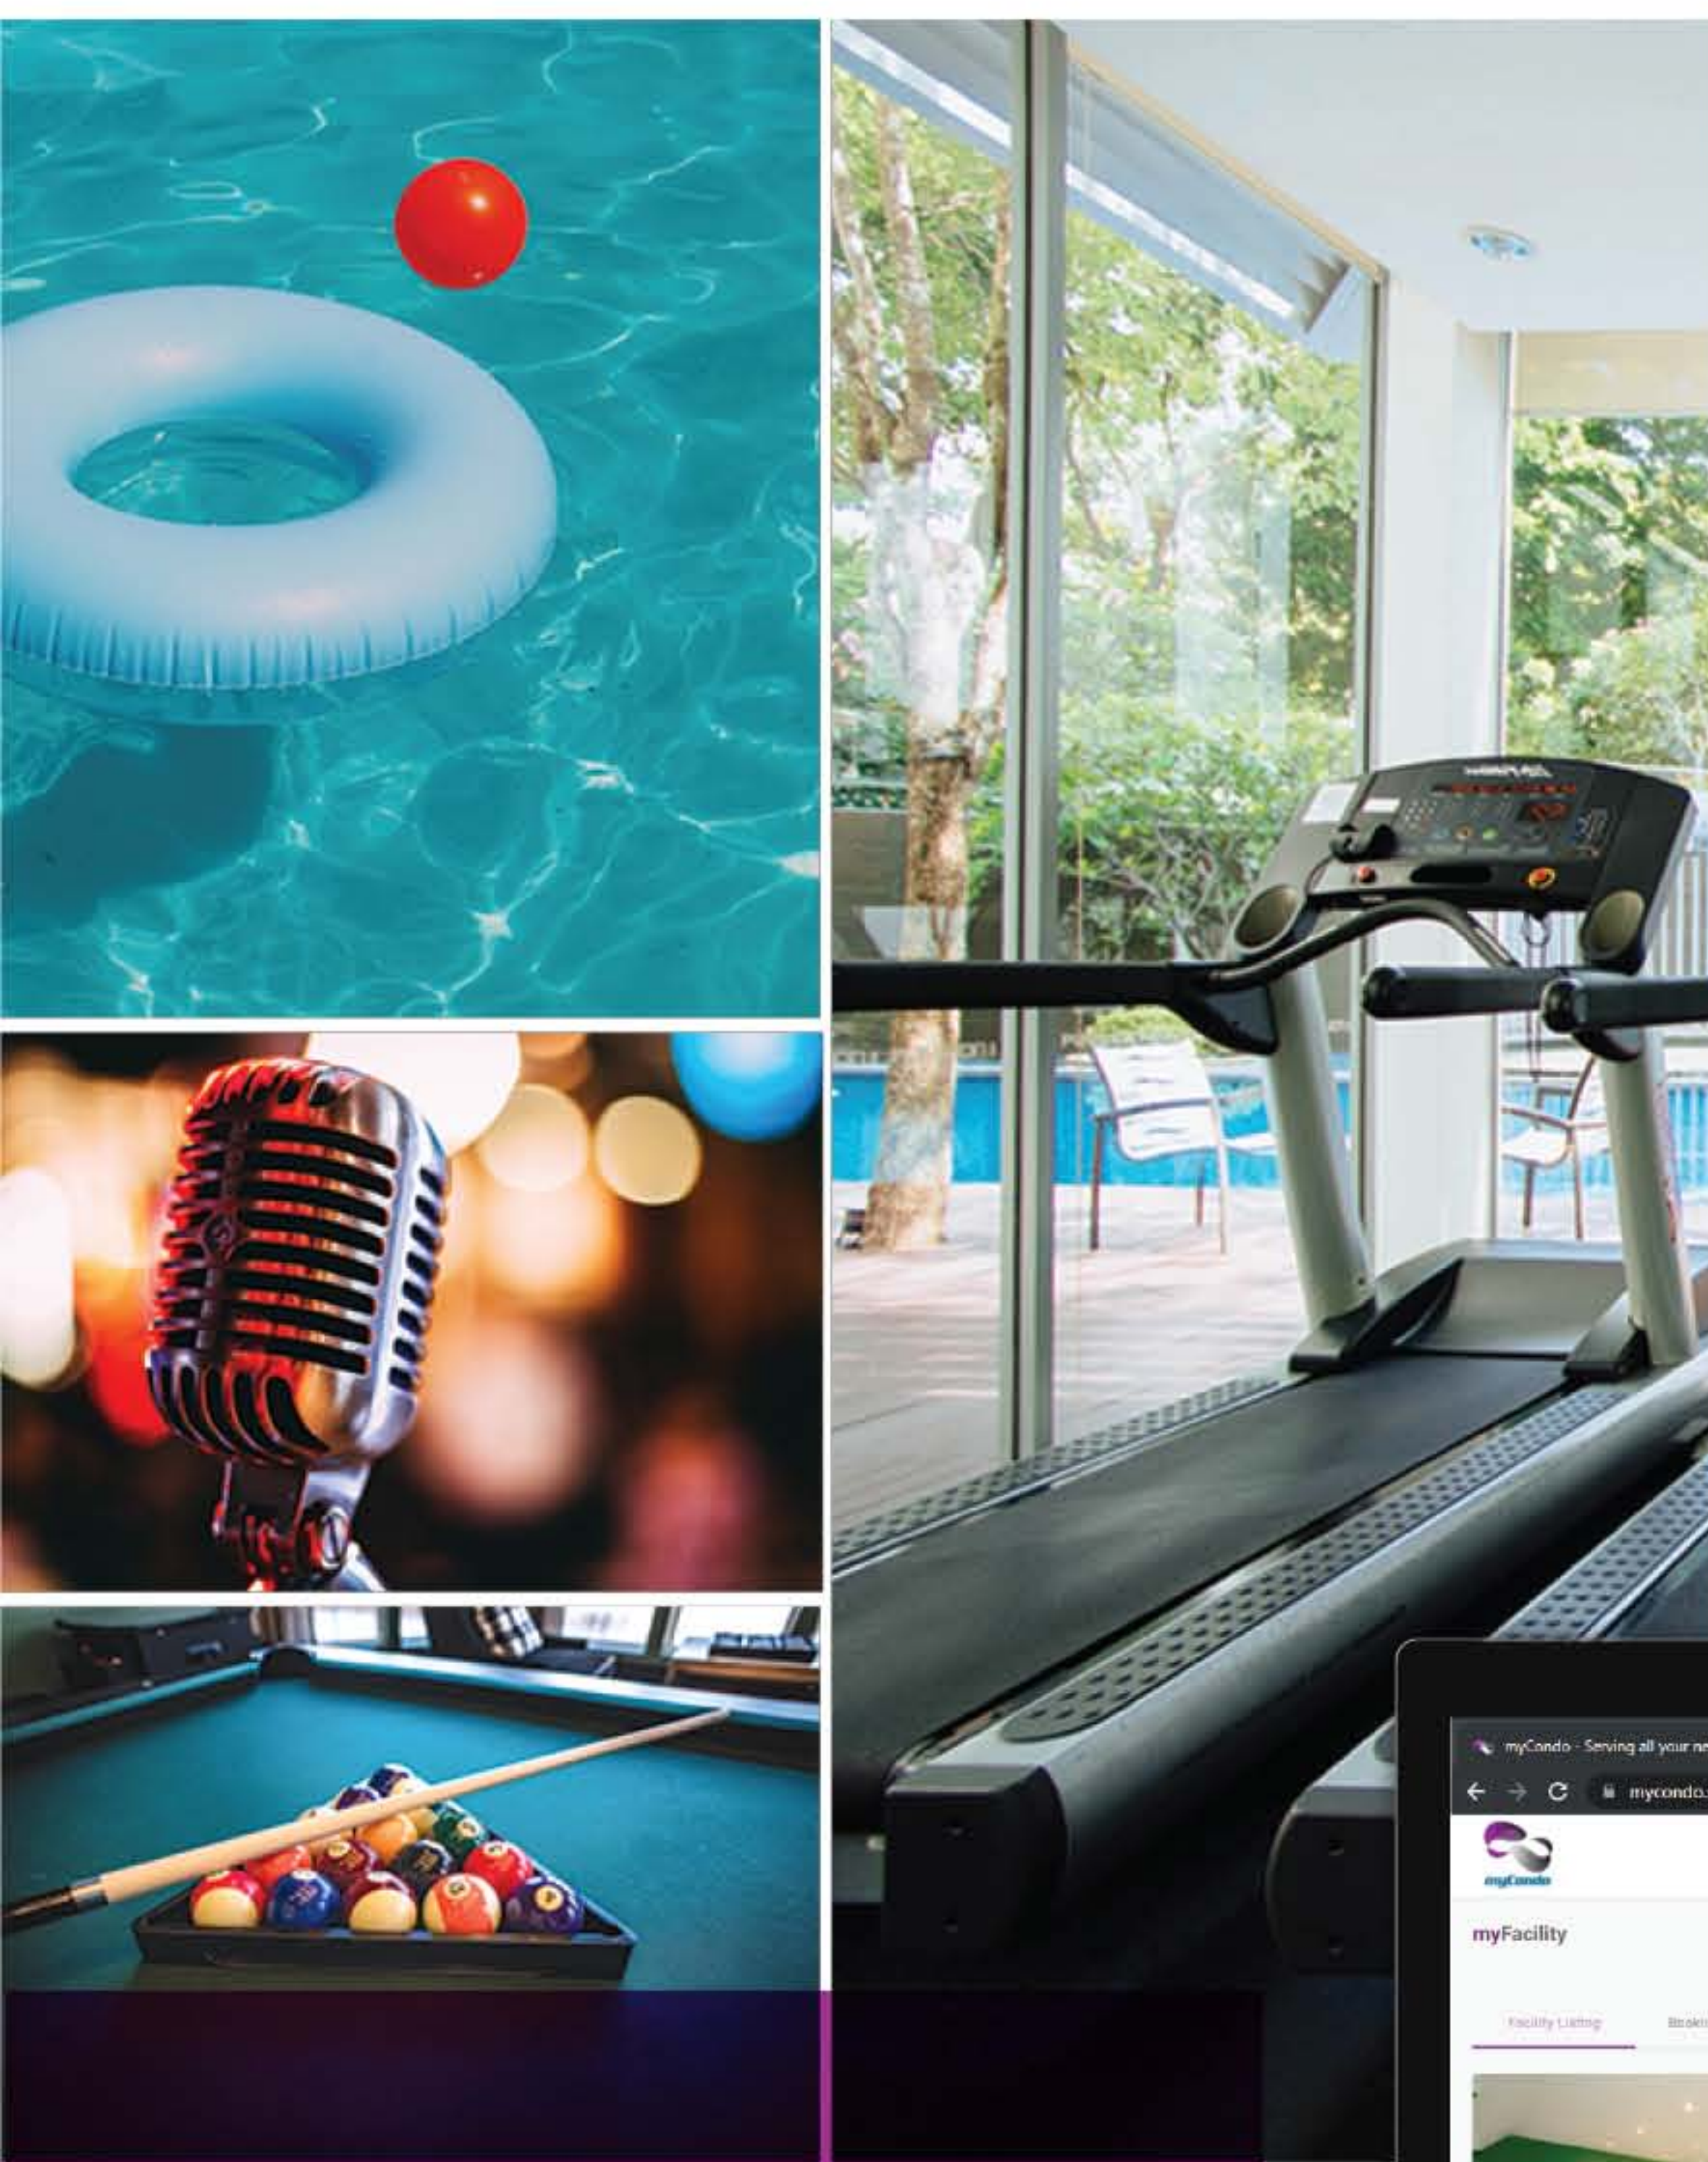

Dashboard

Our Dashboard provides at-a-glance view of the important features, status and notification.

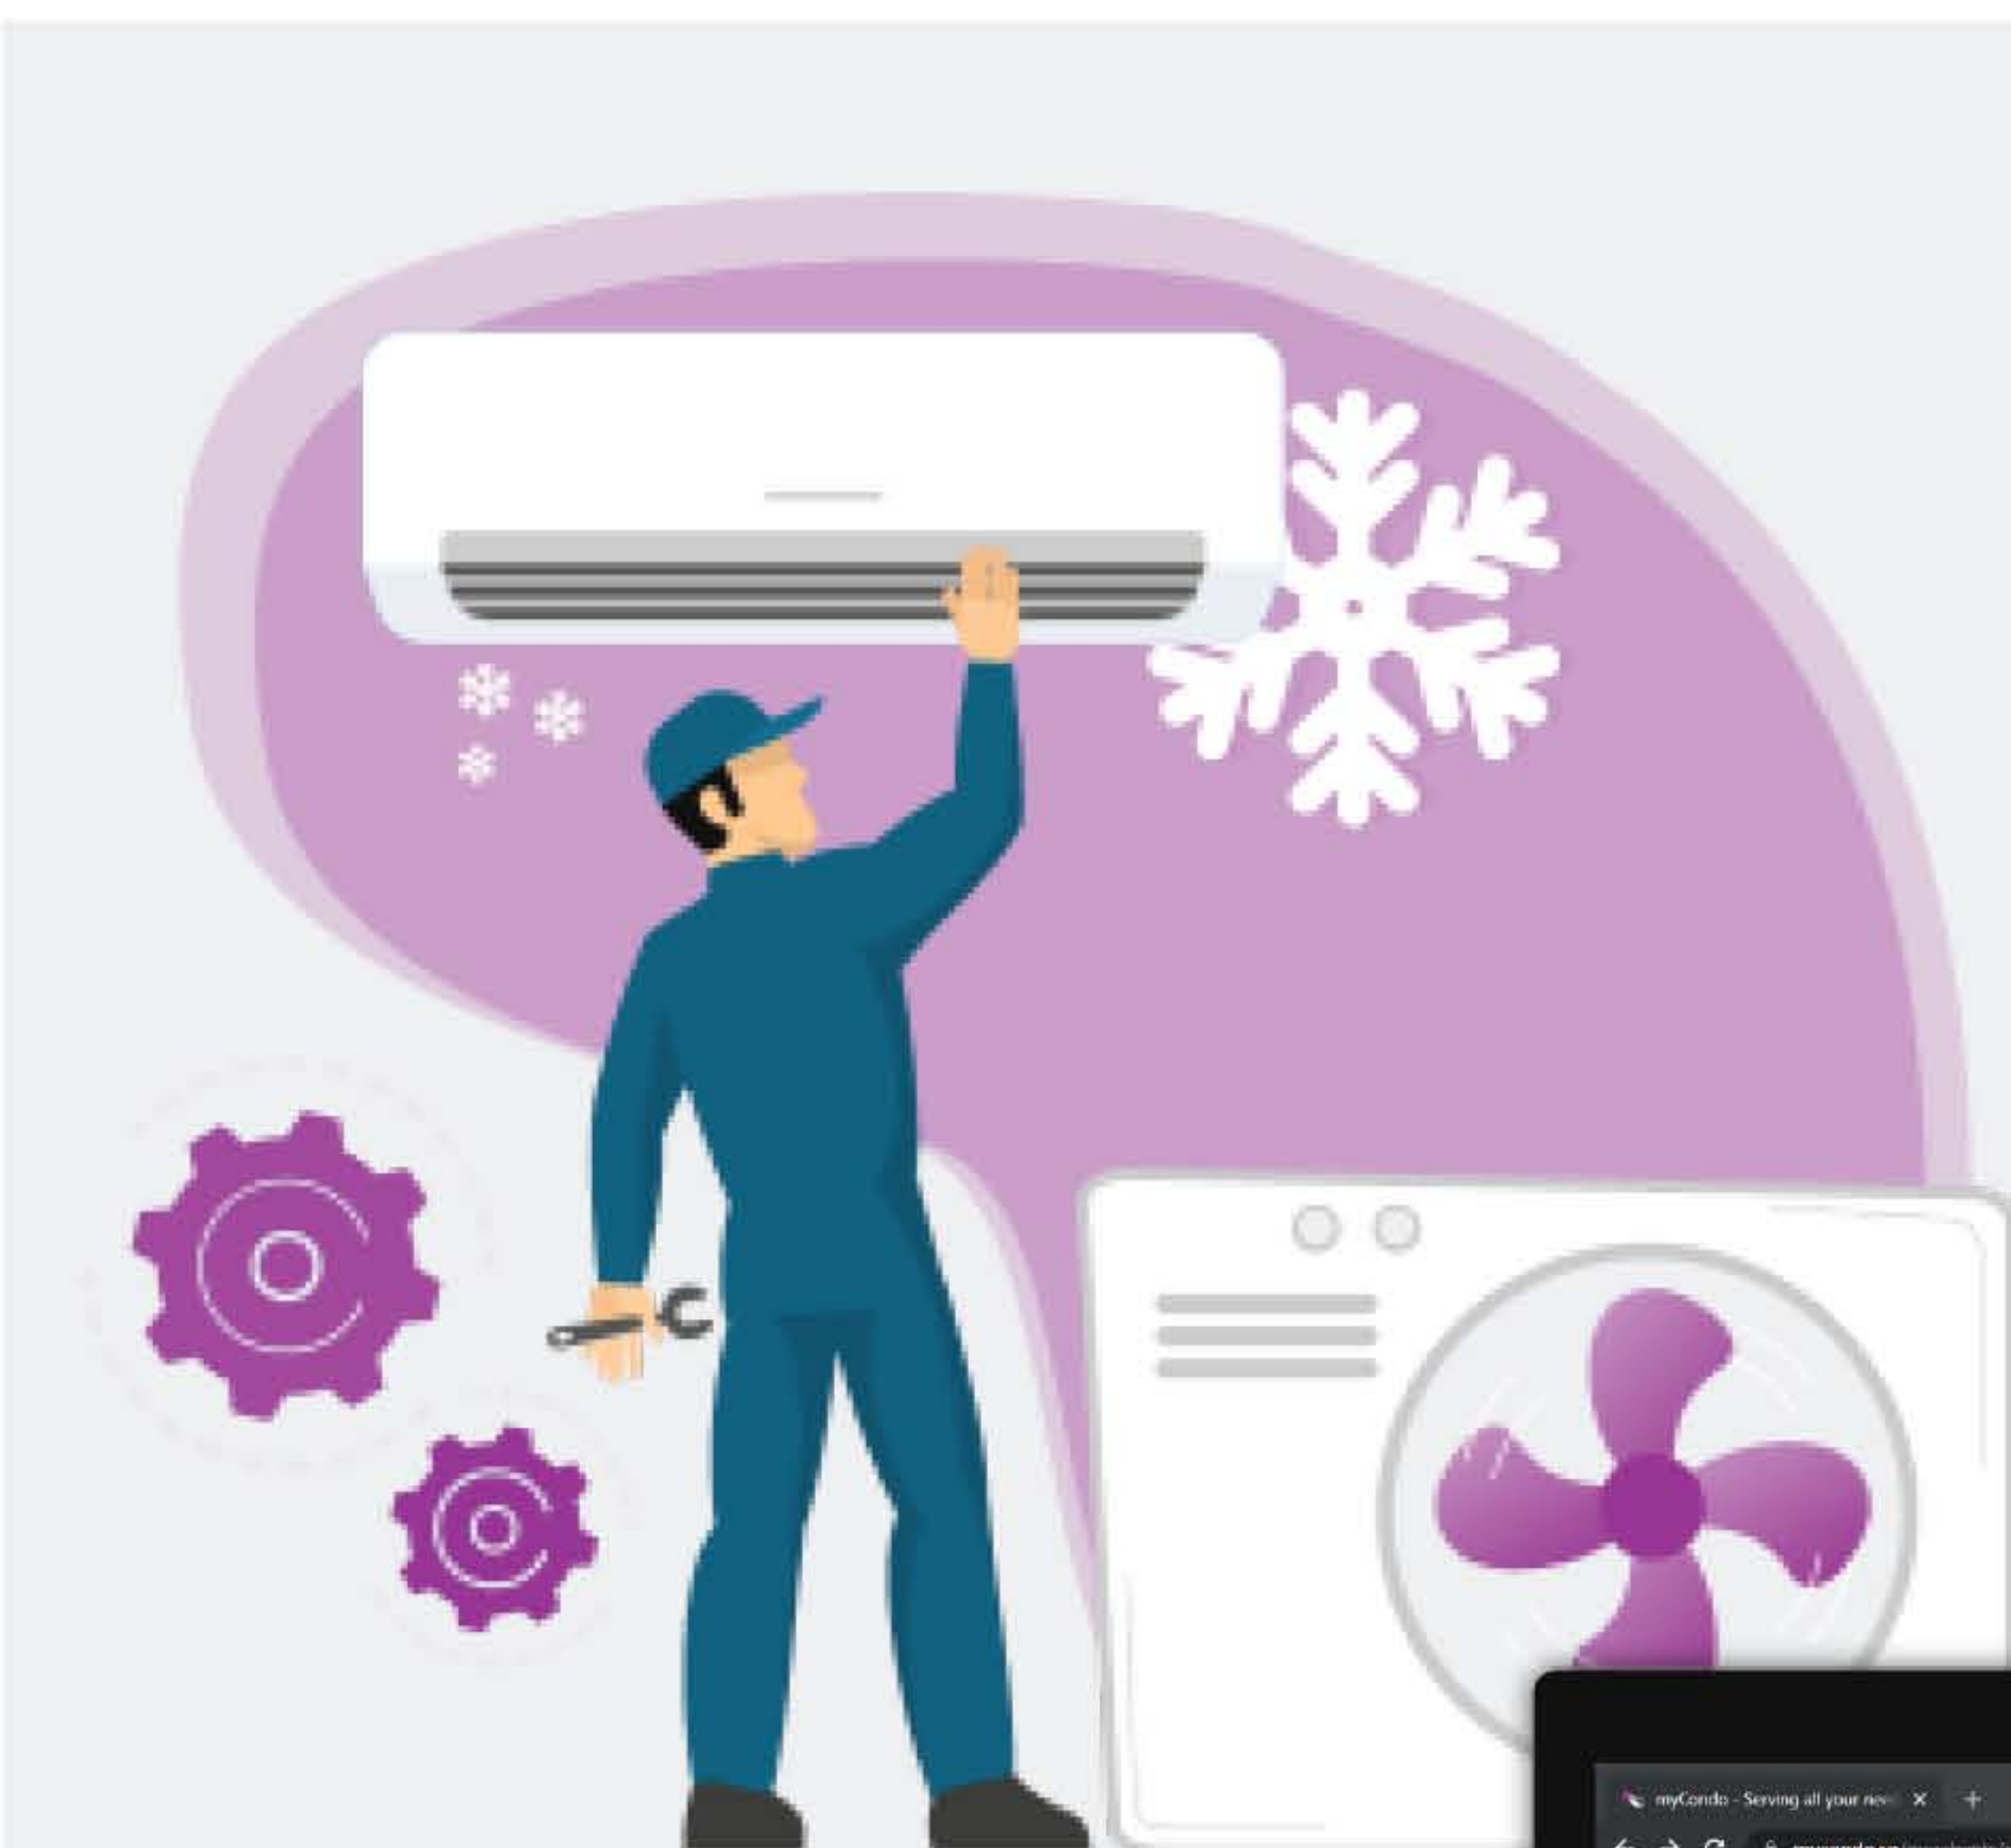

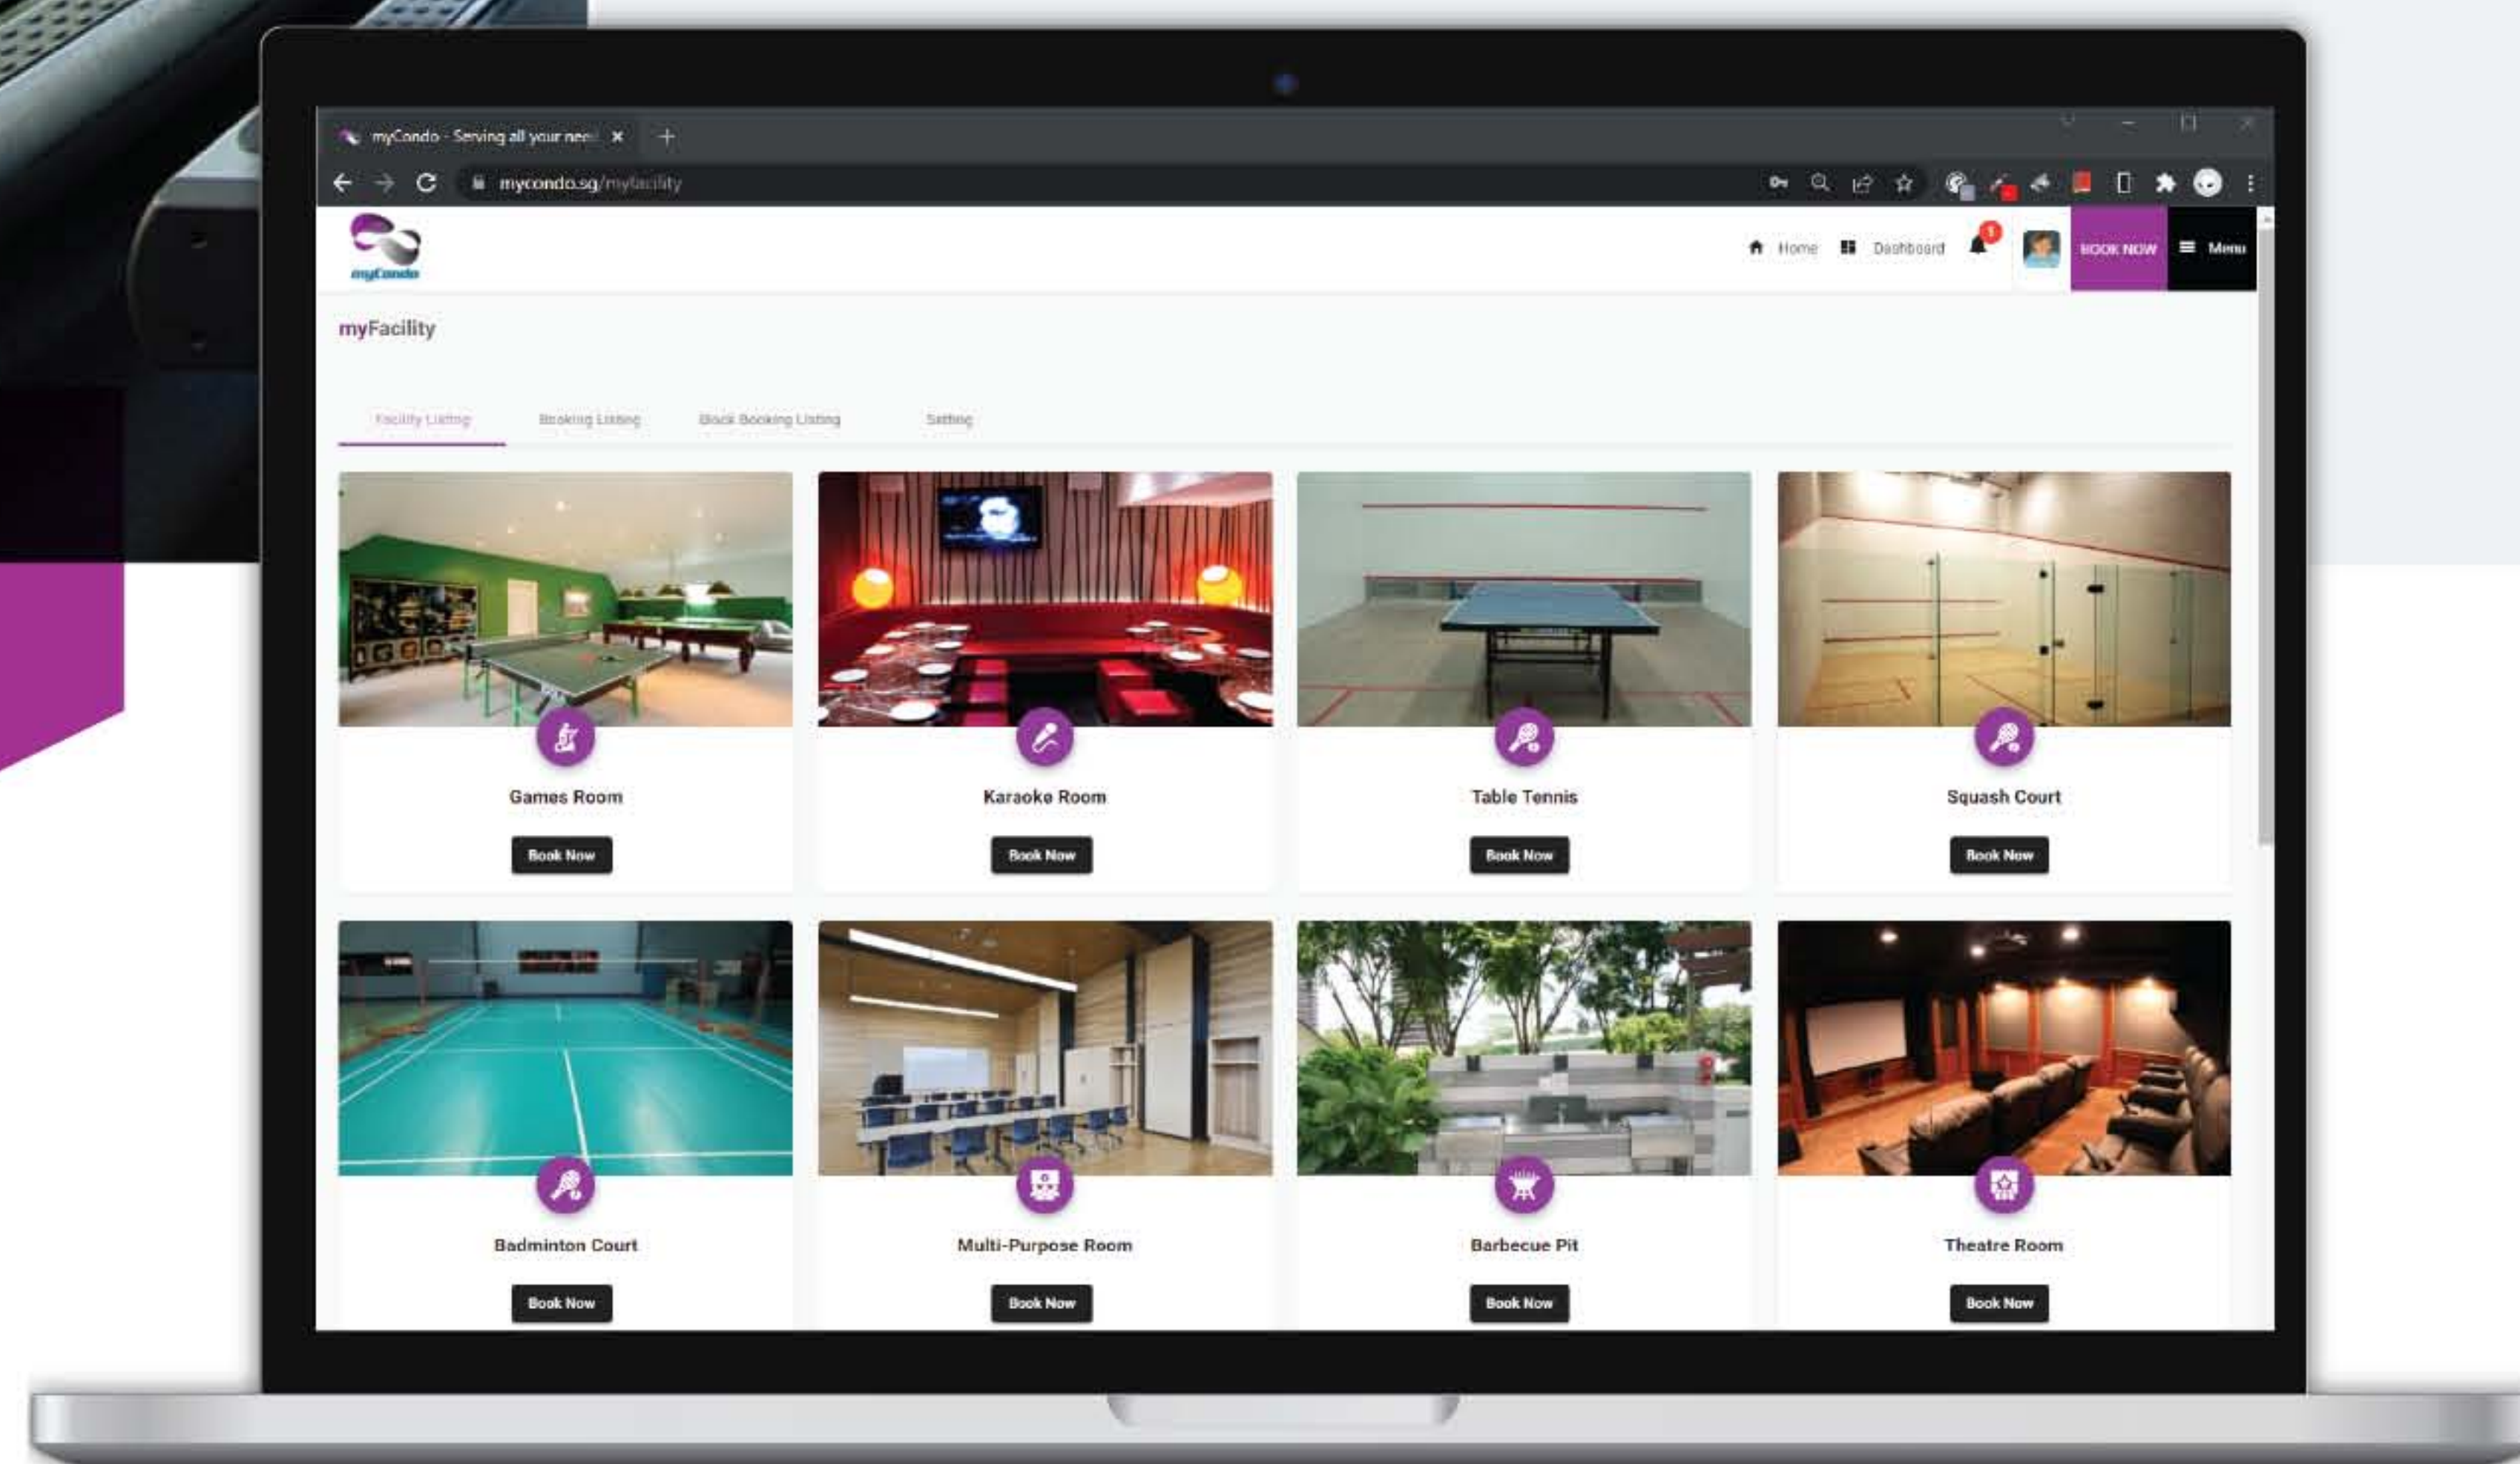

myUnit

myUnit manages information of Subsidiary Proprietor whom unit is tenanted out, Resident Owner and Resident Tenants' particulars including Unit Type and Tenancy Period.

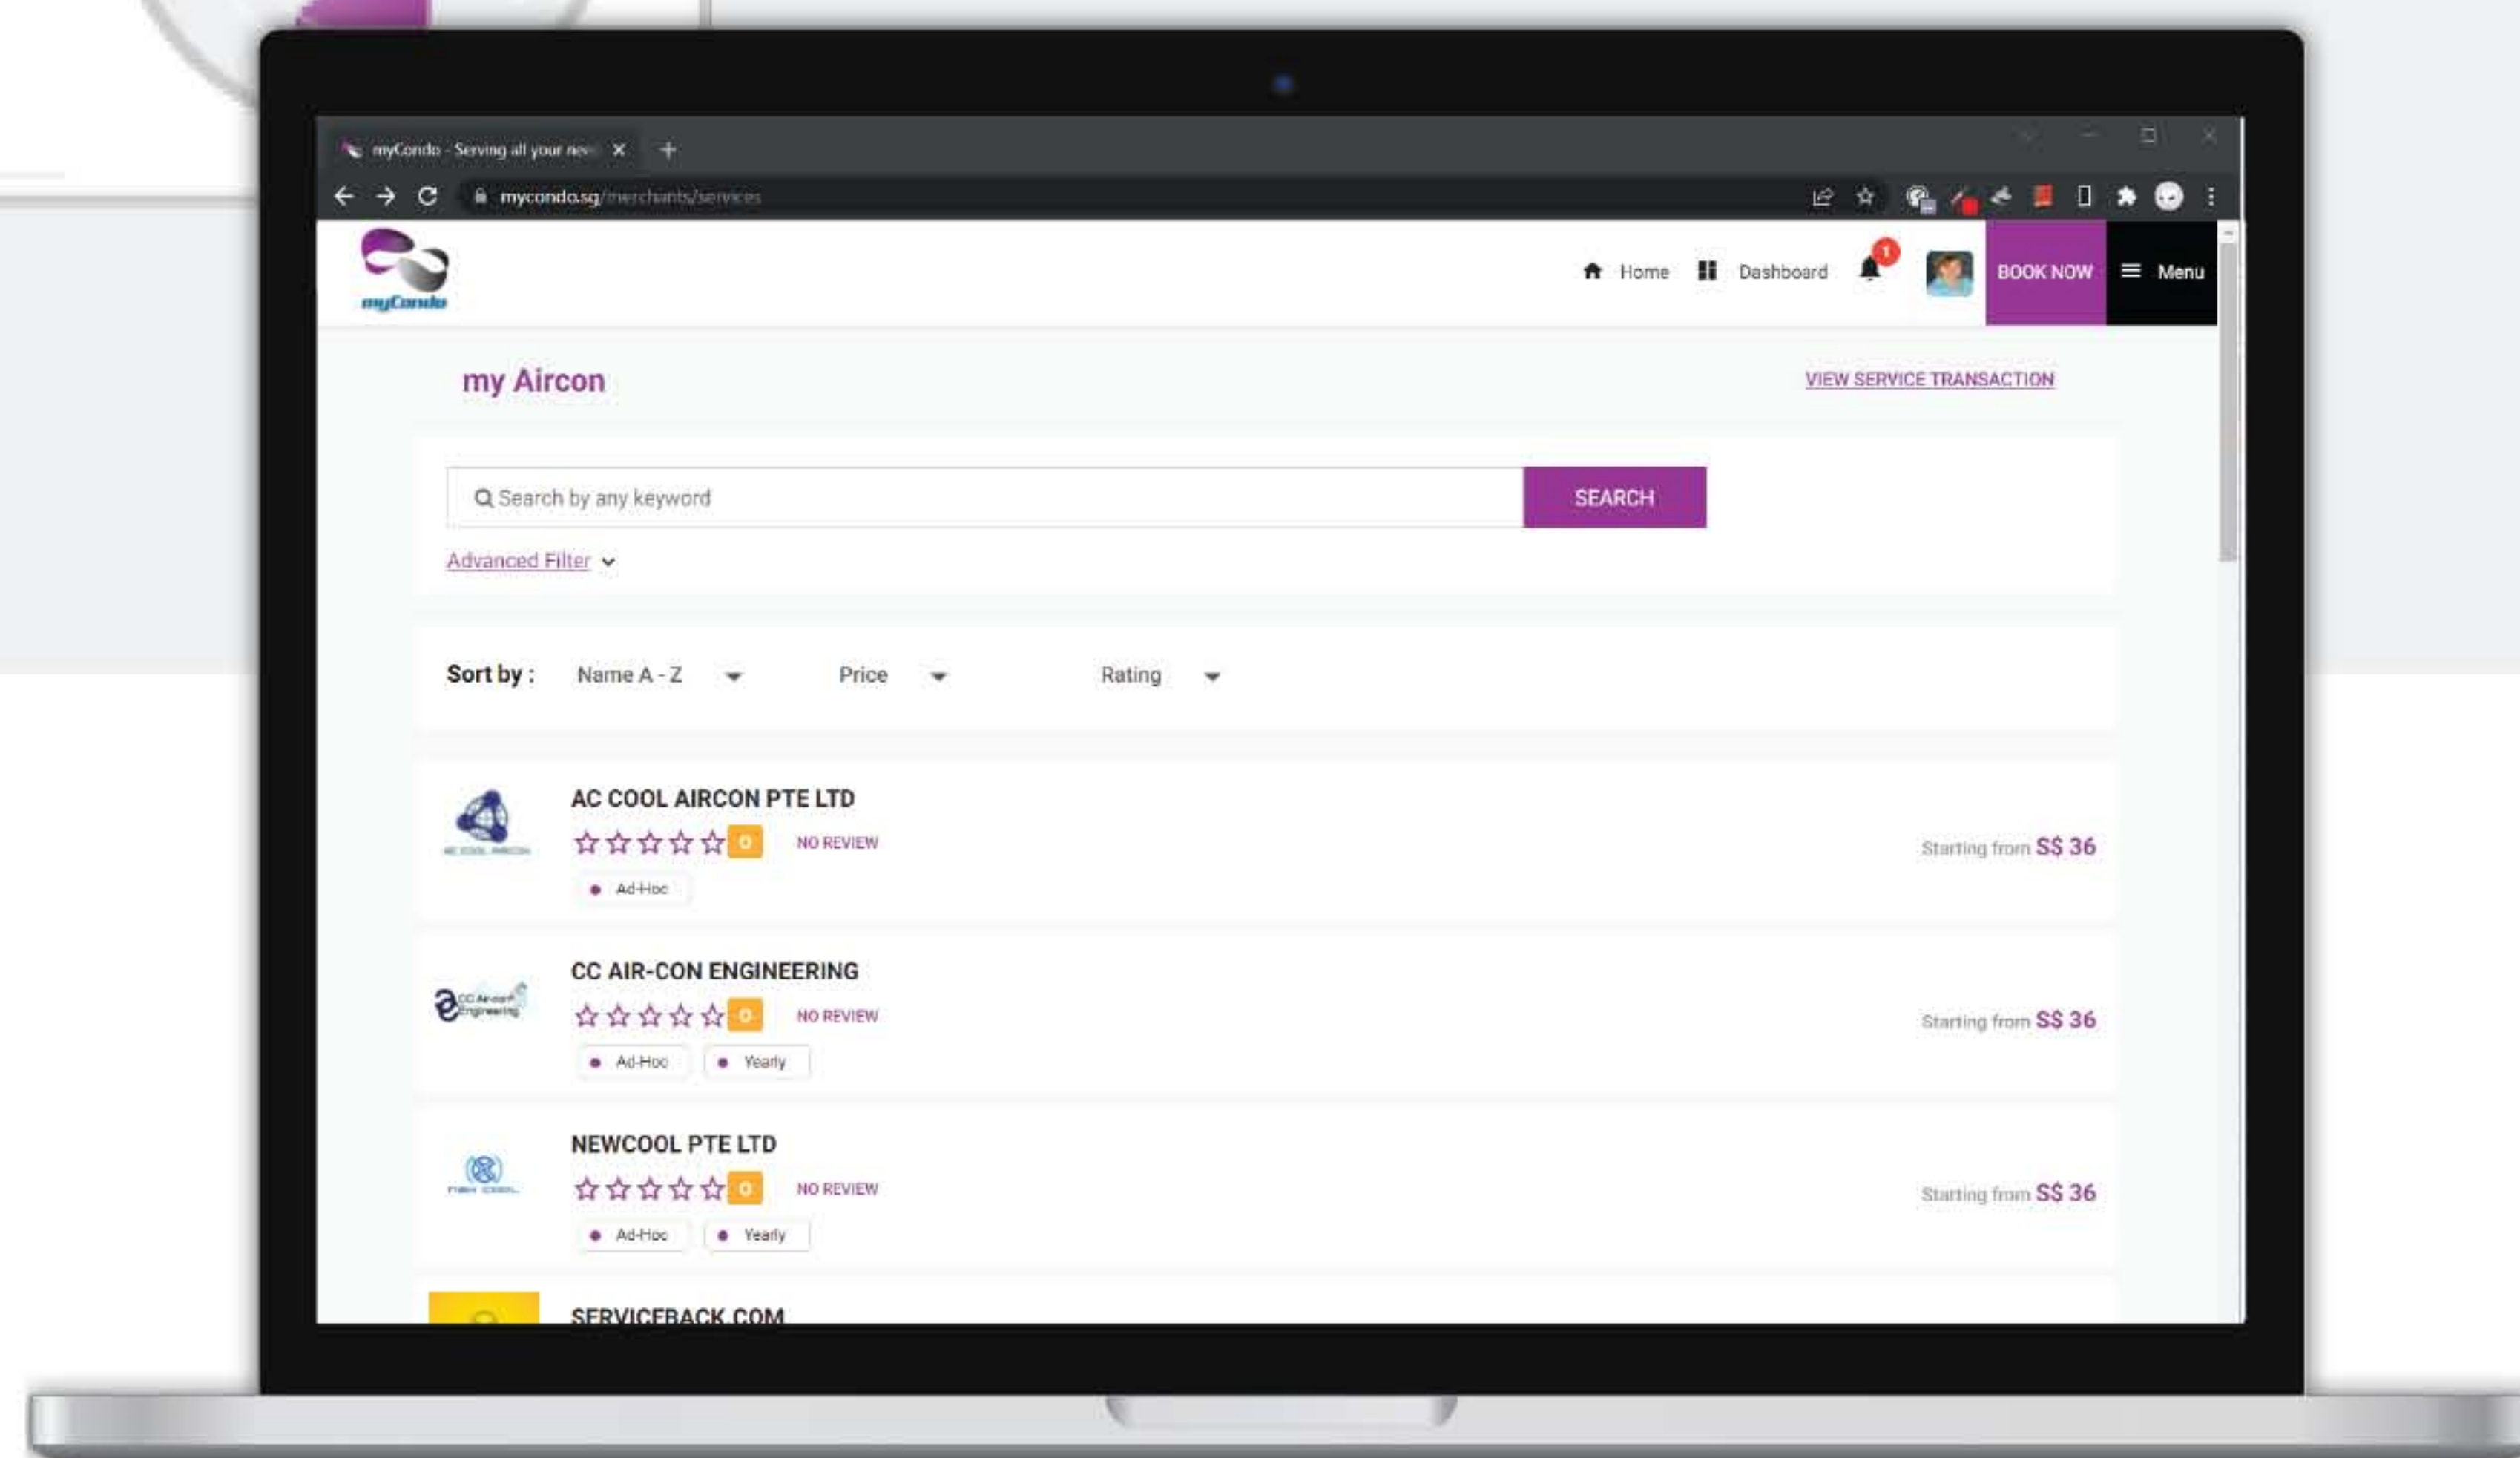

myFacility

myFacility is an
online Facility Booking Management System
allowing residents to make booking reservations and
booking self-confirmation through myCredit anytime 24/7.

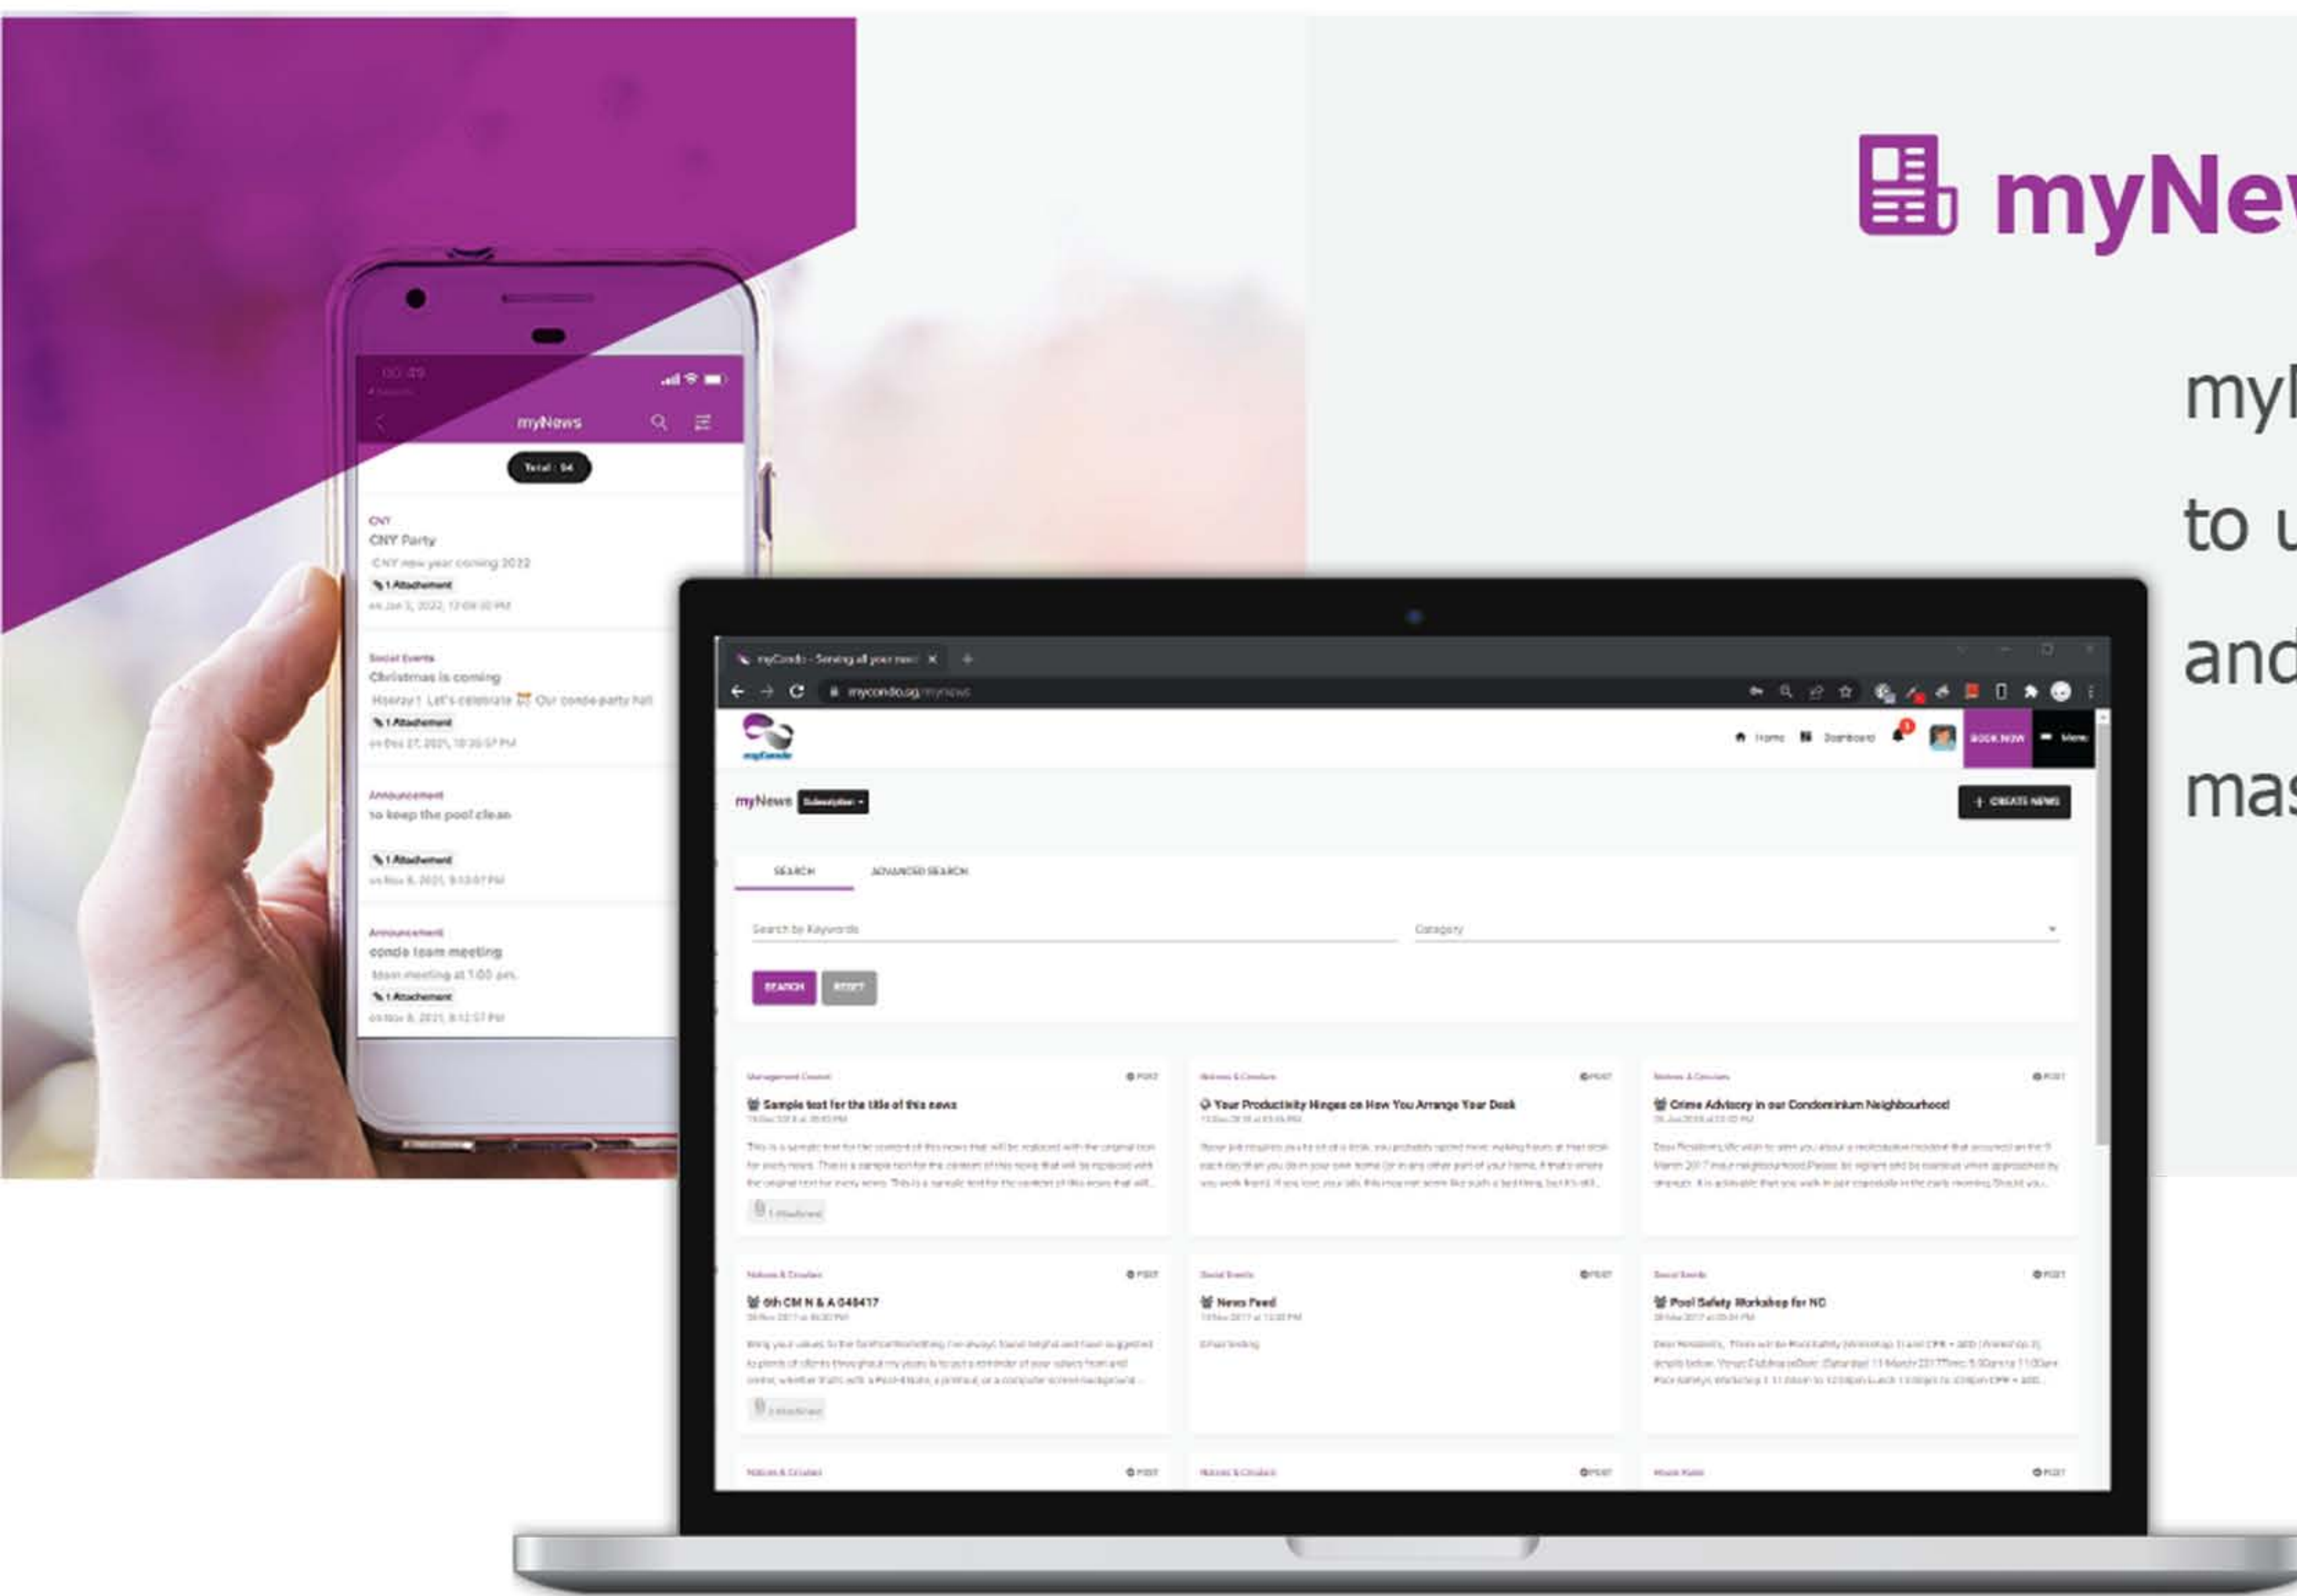

myAircon

Read reviews, choose your
preferred merchant, select the
schedule and pay online at your
convenience.

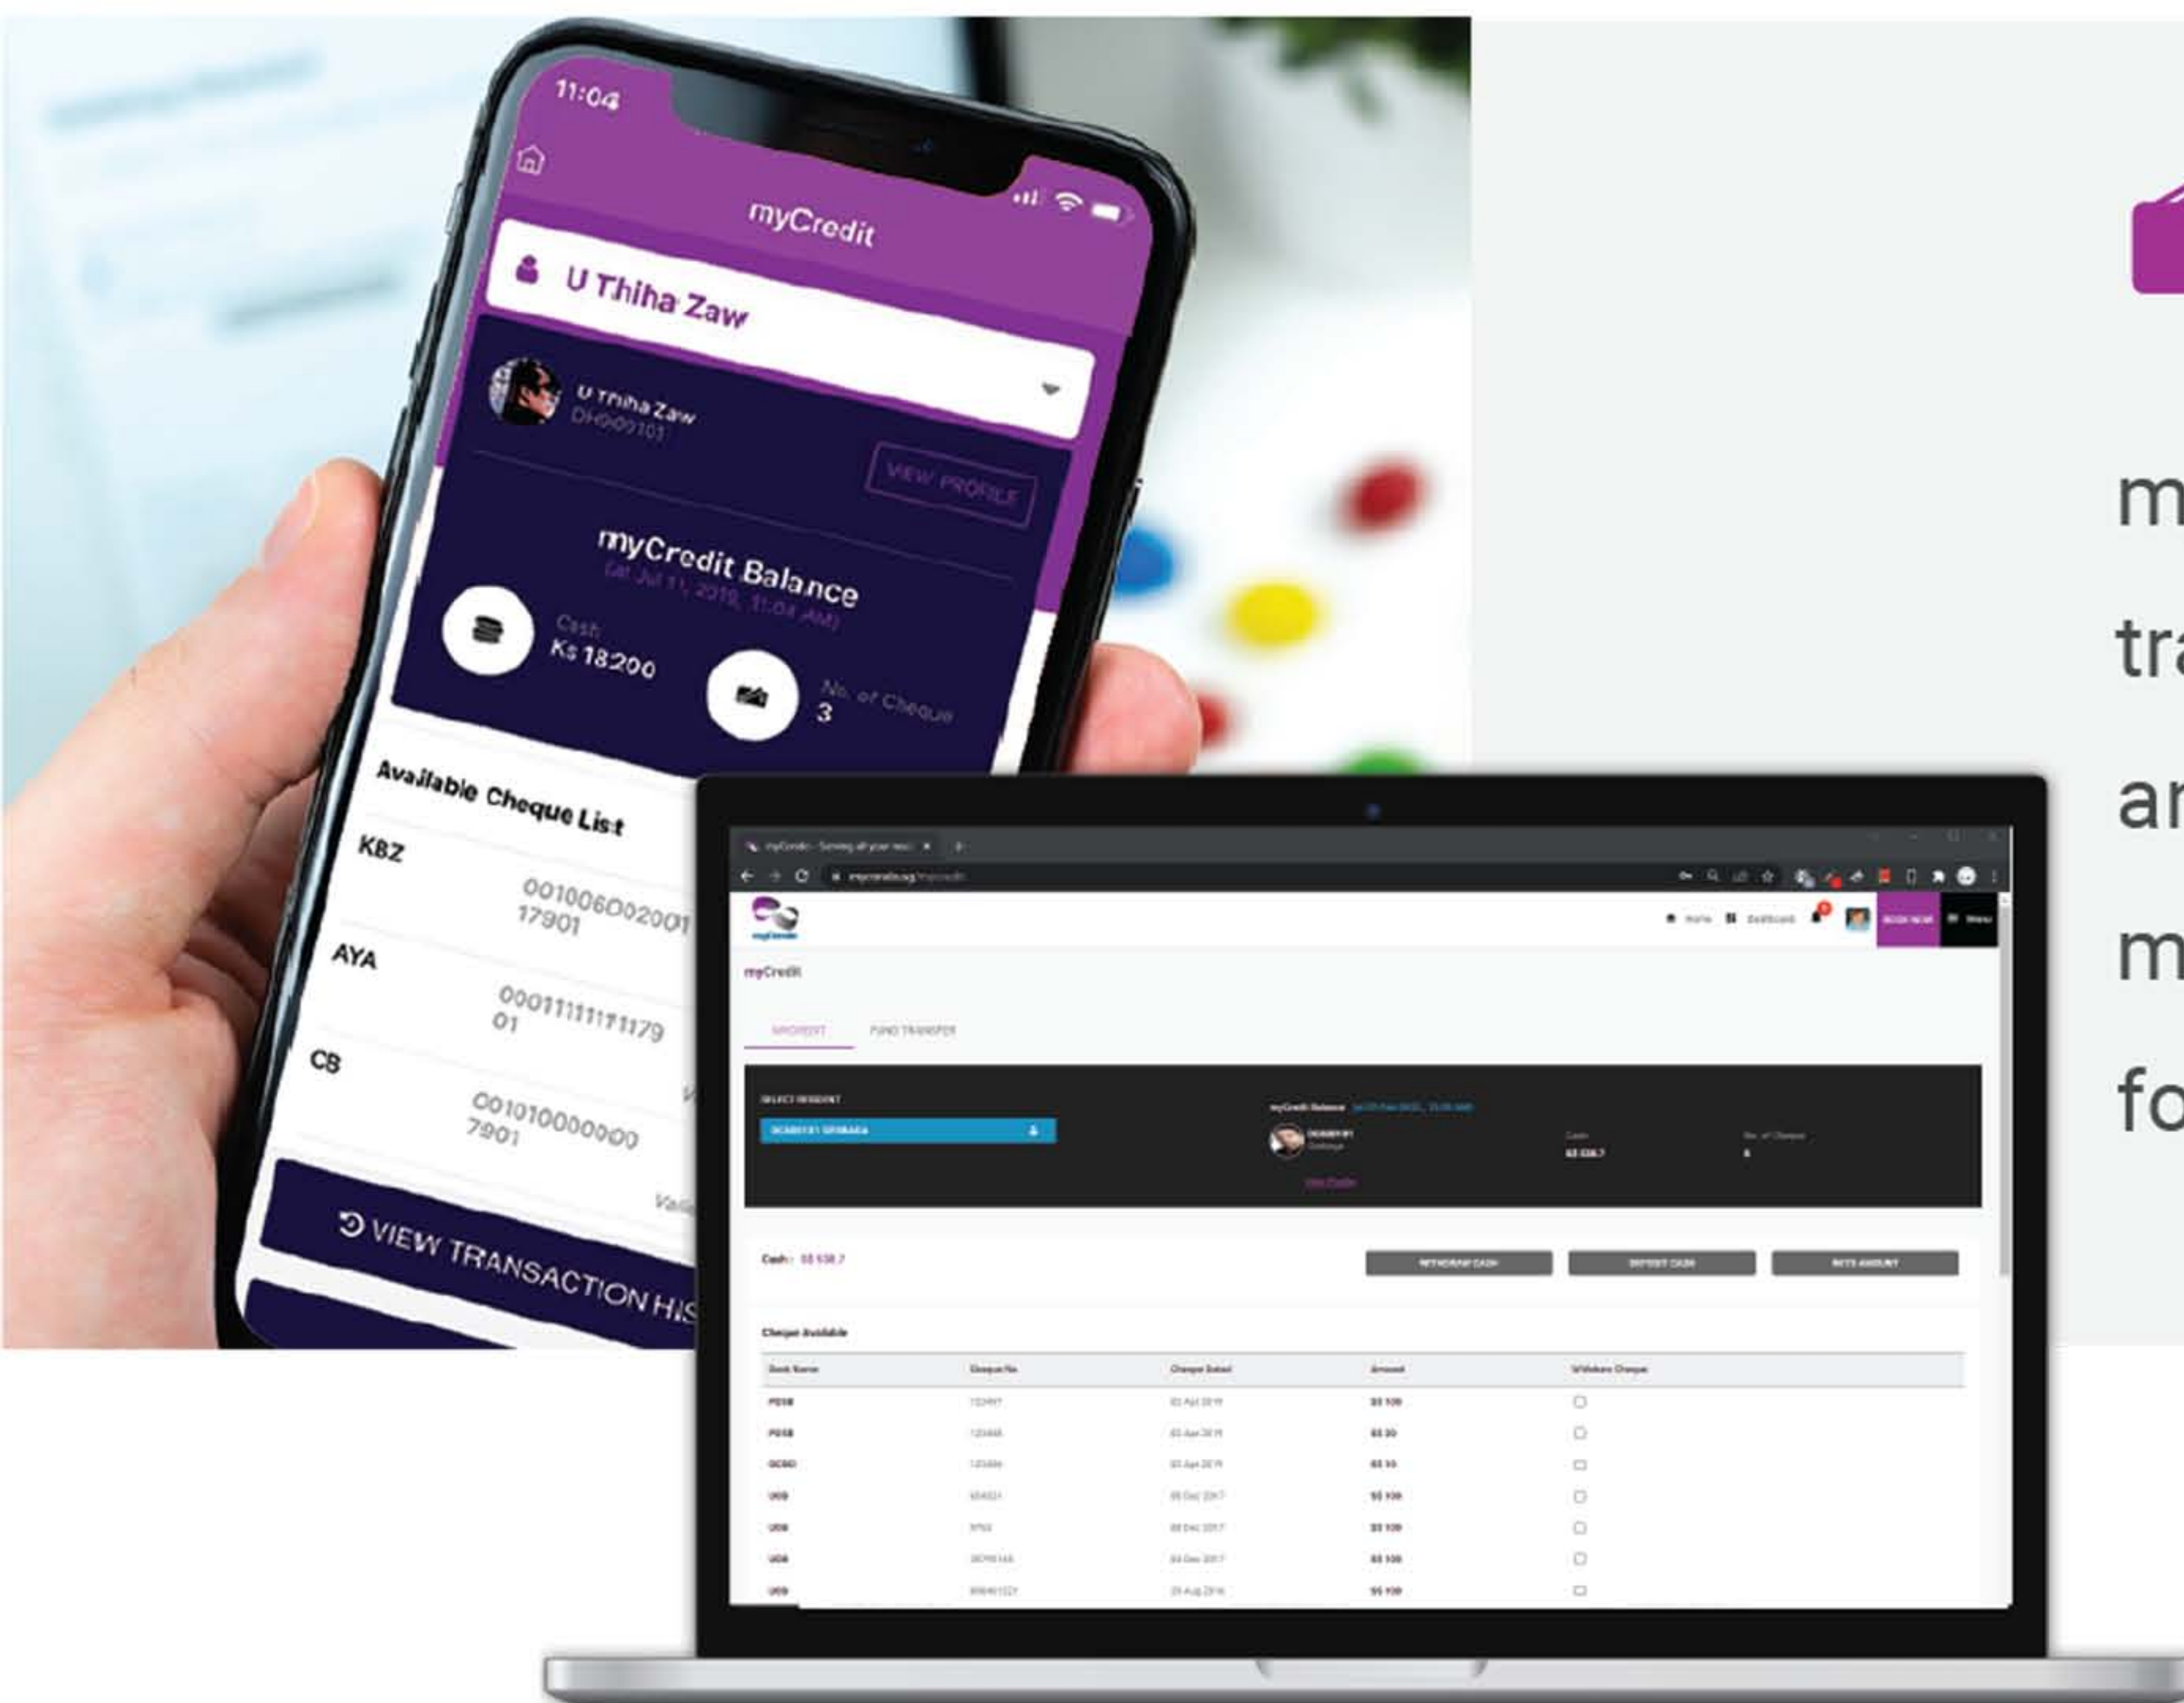

myNews

myNews allows The Management to upload news, notices or circulars and notify the residents through mass email upon uploading.

myCredit

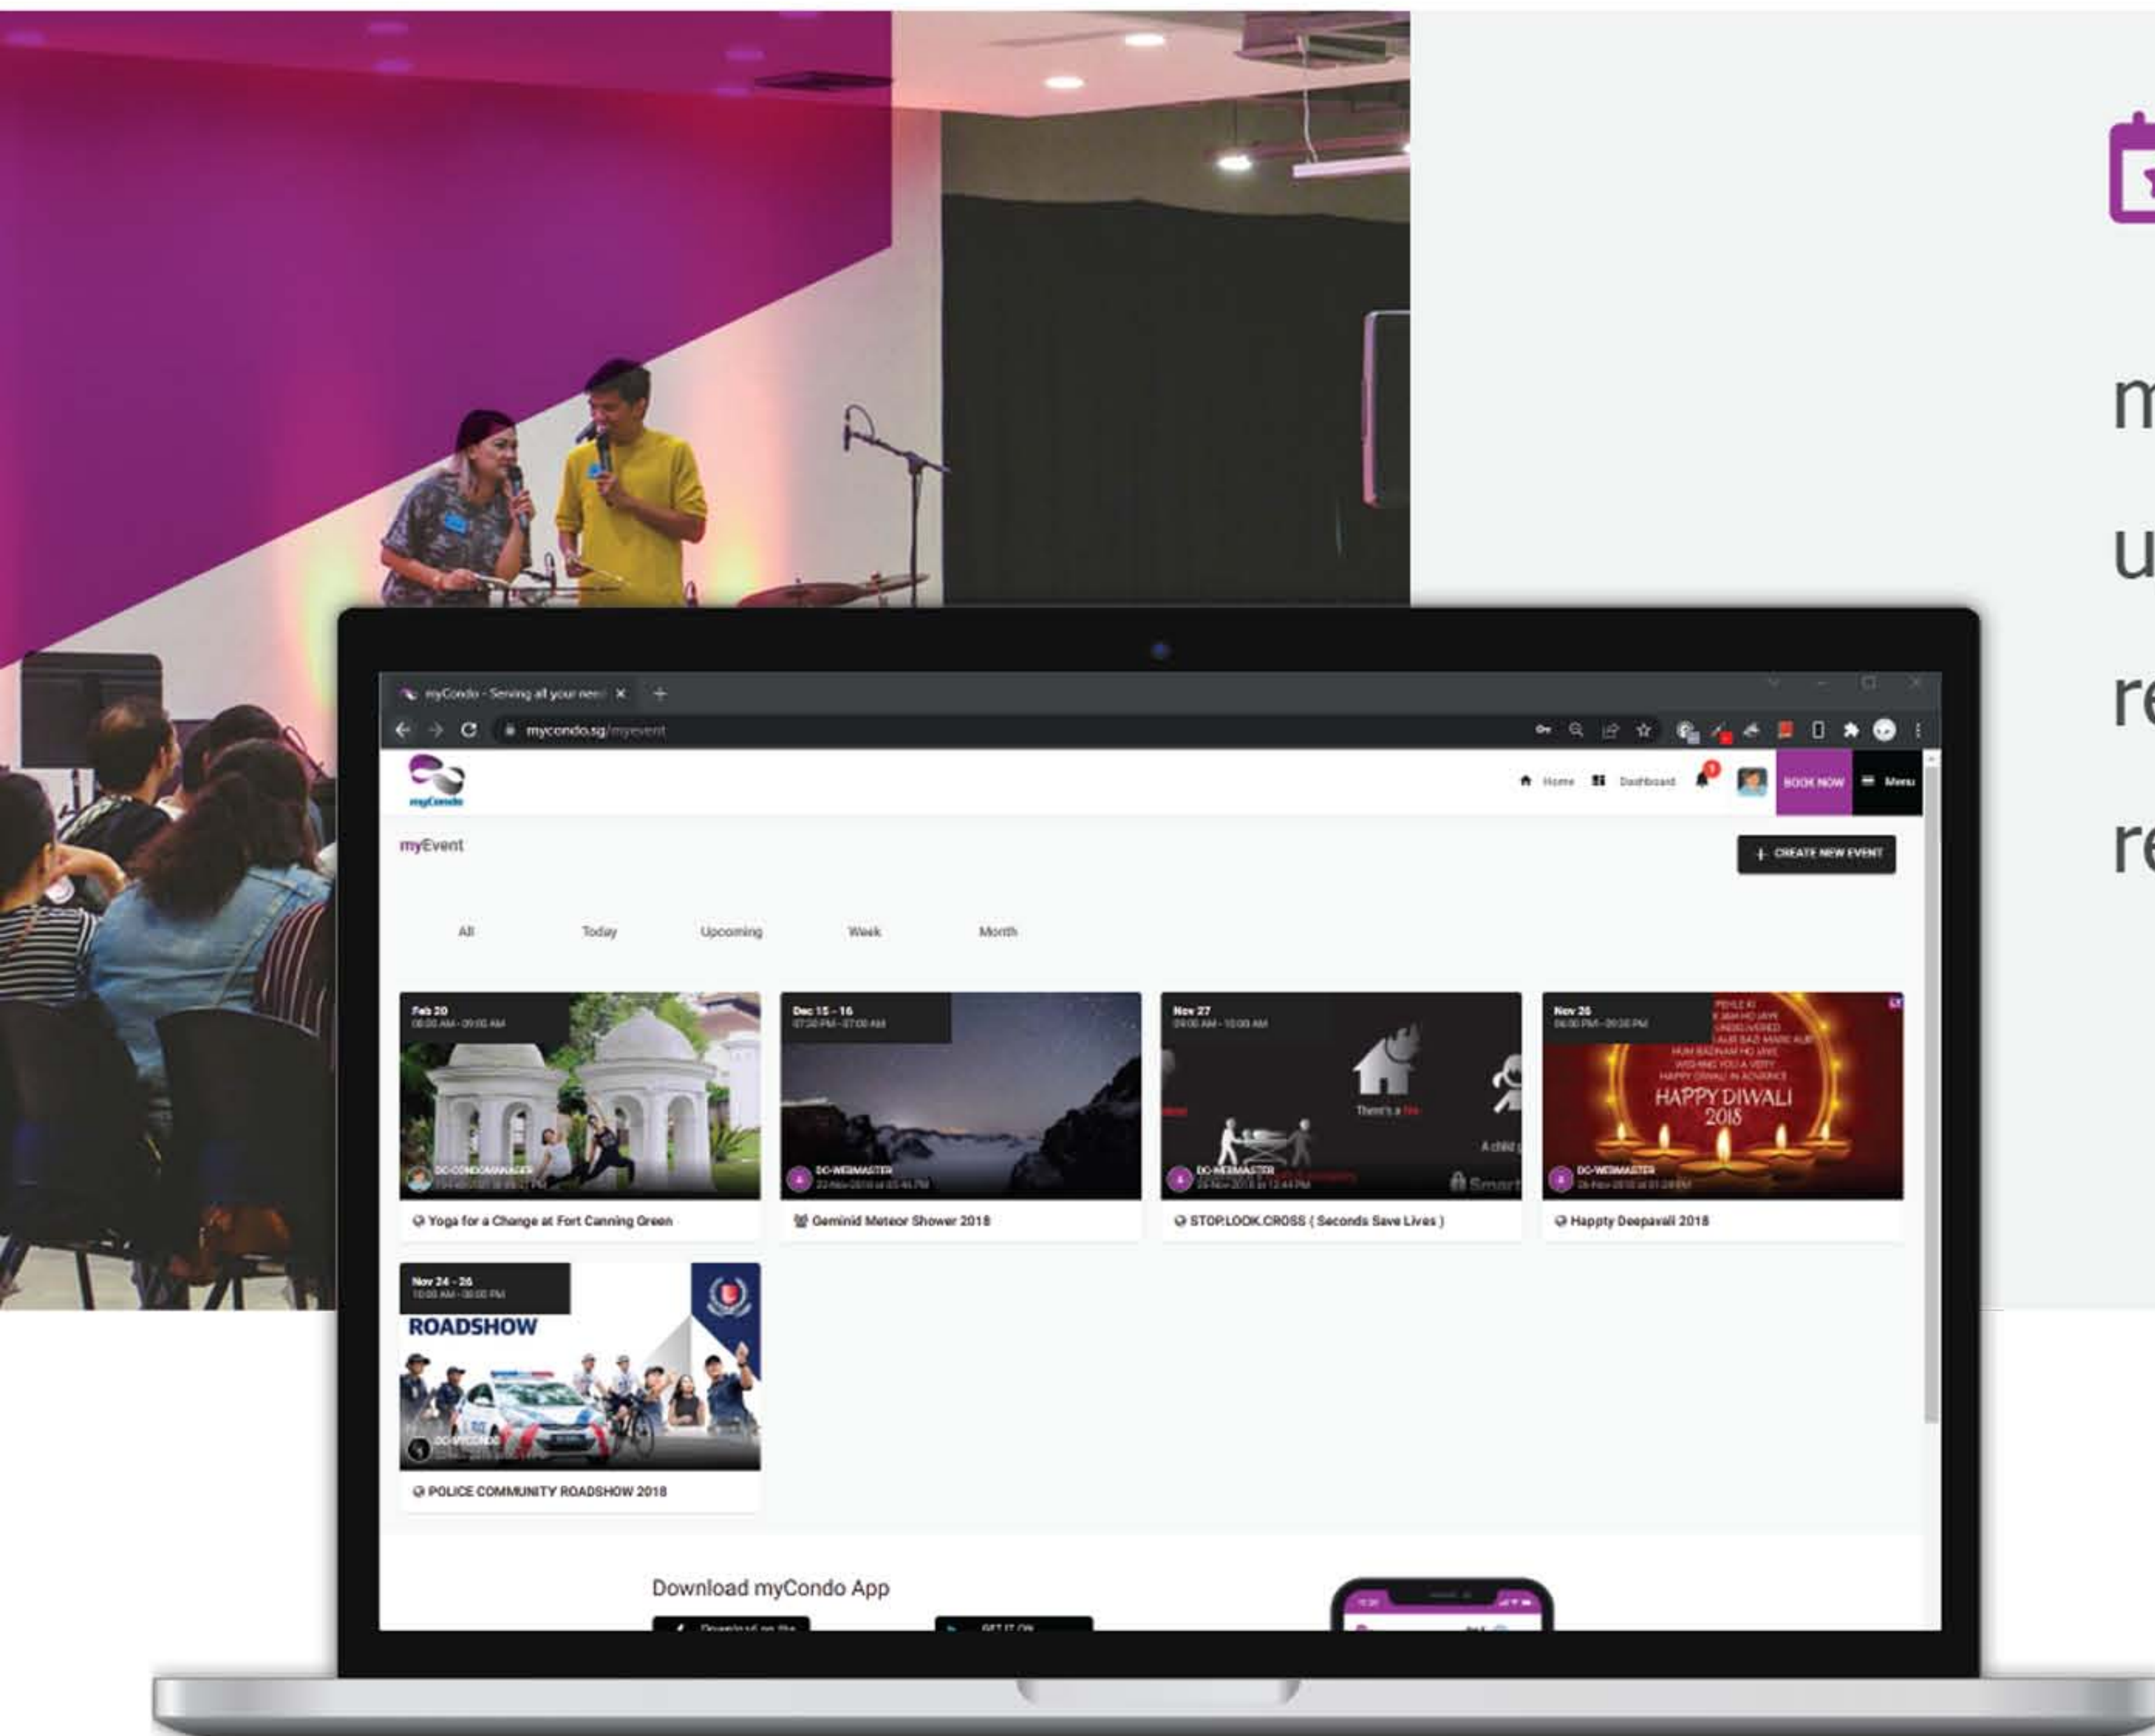

myCredit manages cash & cheque transactions (deposit, withdraw or bank-in) and keeps track of the cash/cheques movement when residents make payment for Facility Booking and House Moving.

myFeedback

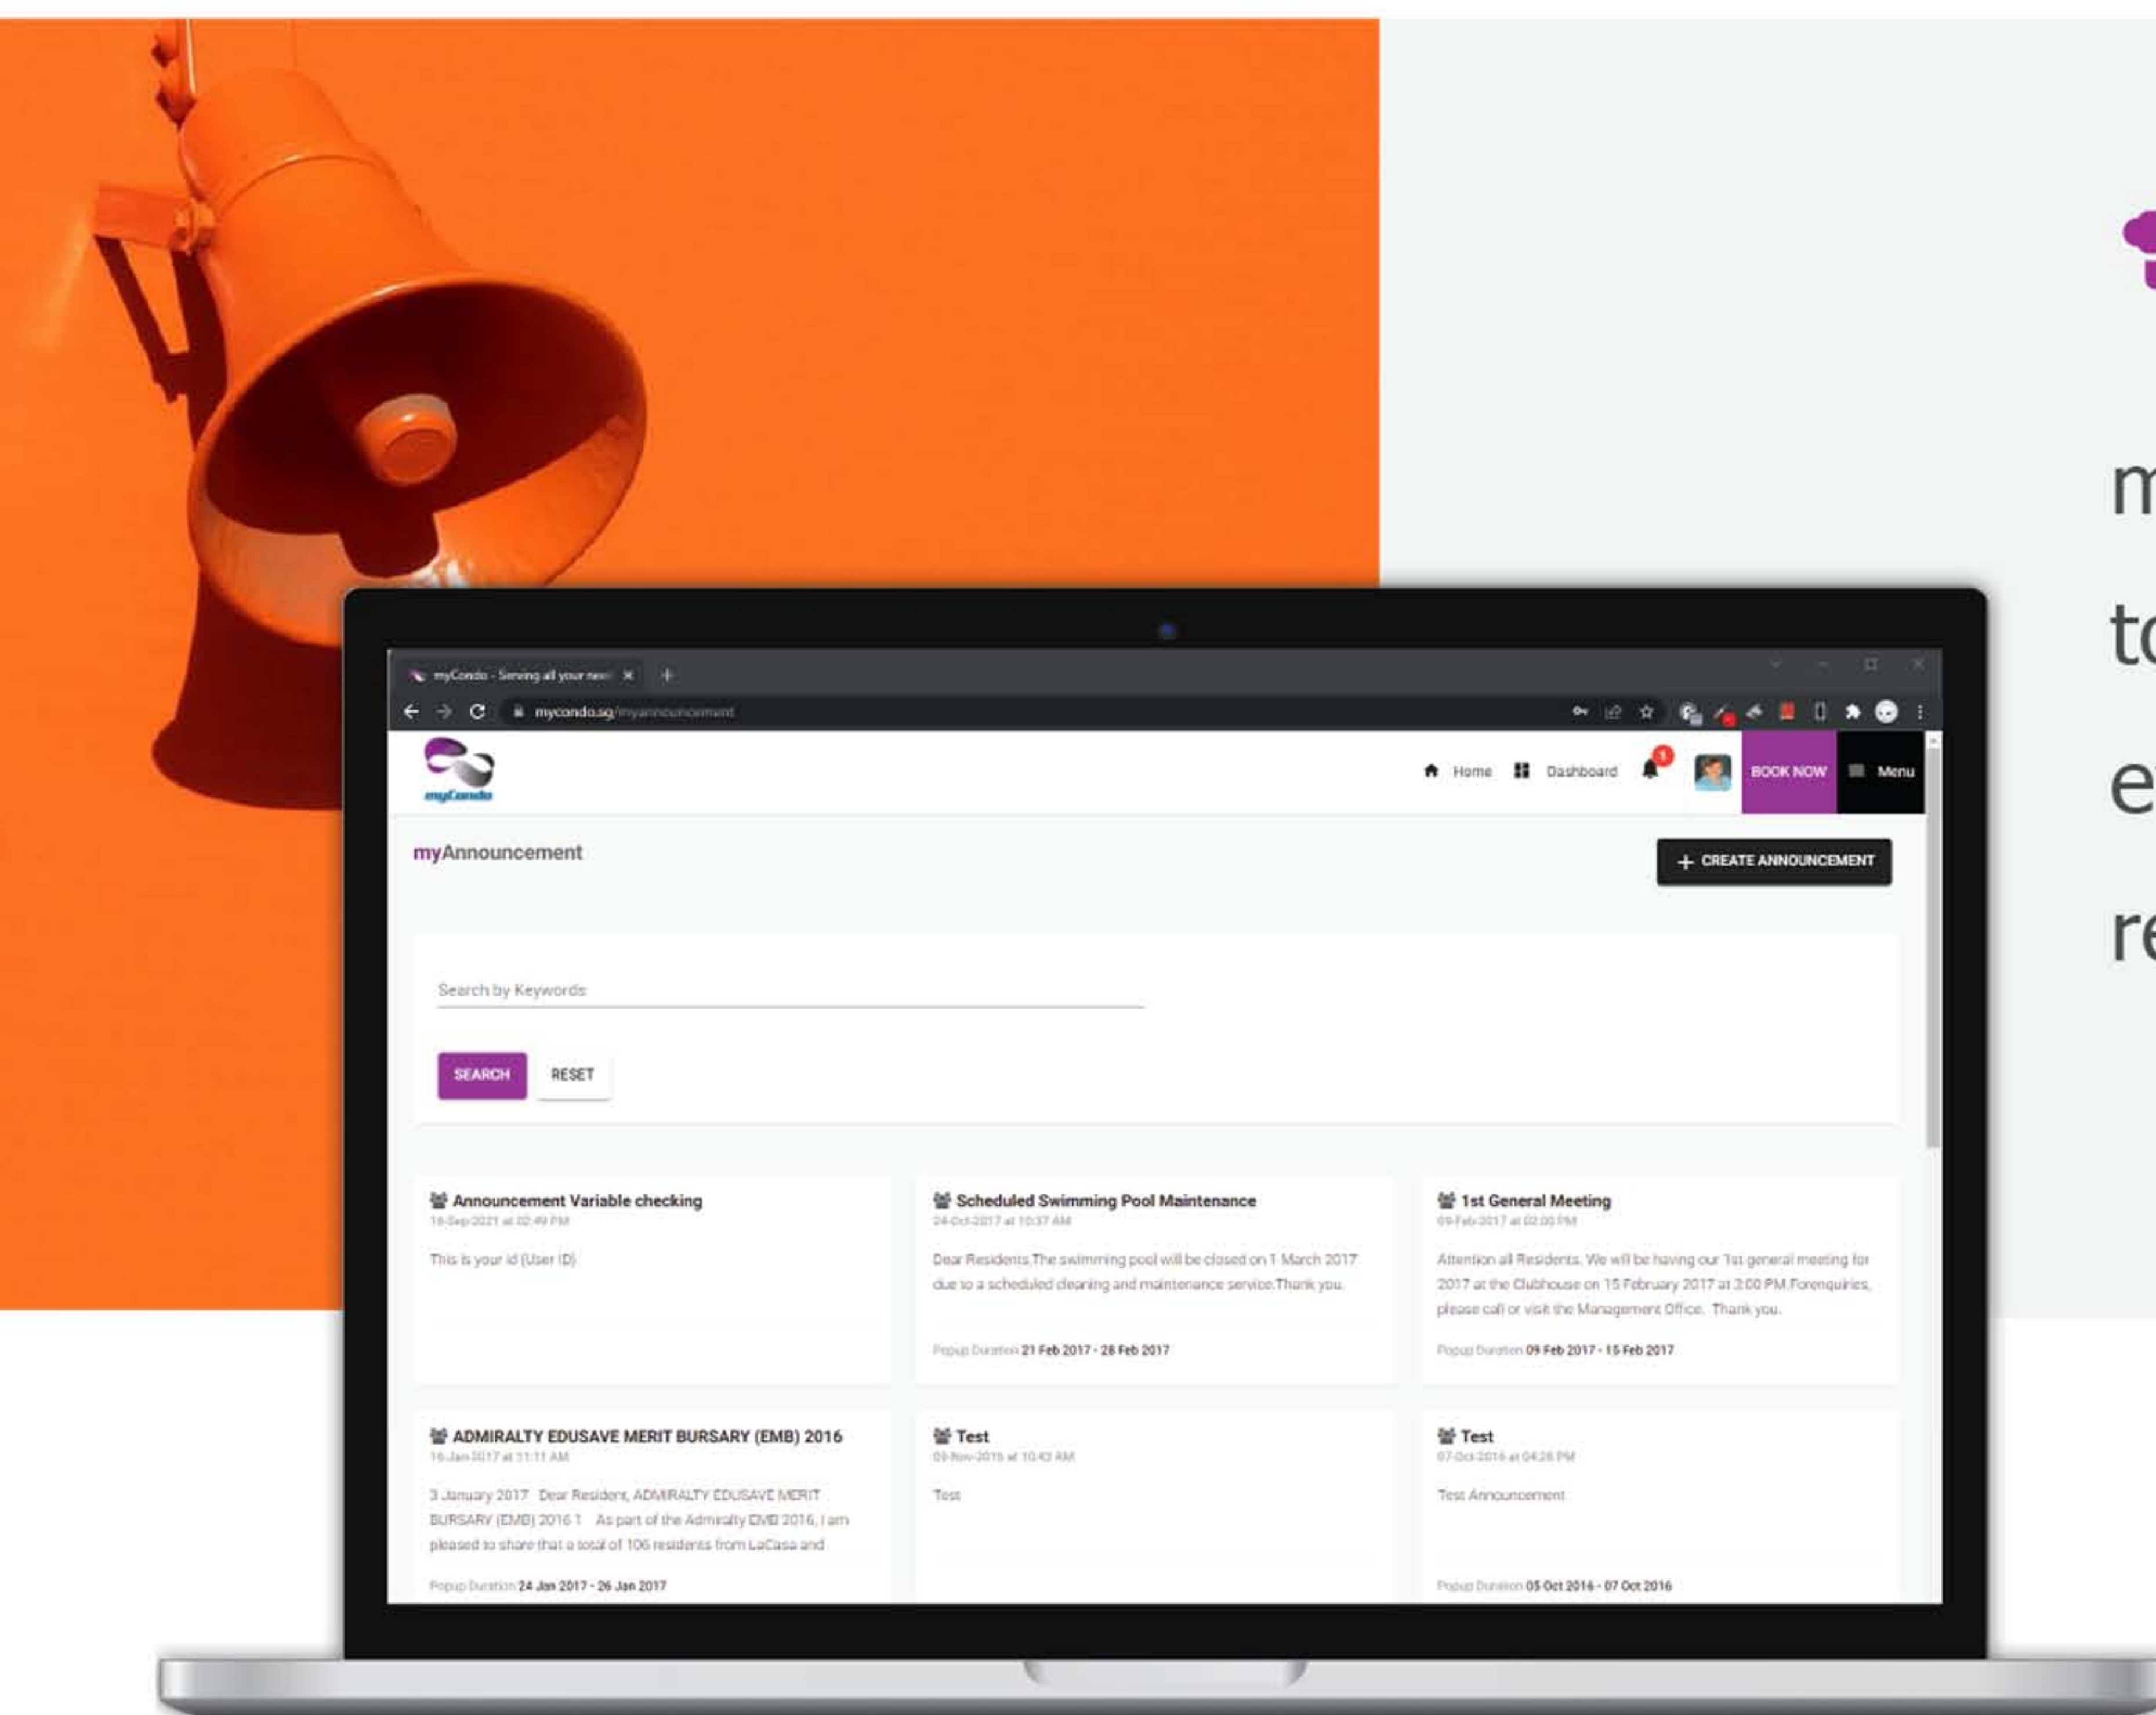

myFeedback allows residents to feedback and The Management to act on, update, share and communicate the status of the feedback with the resident.

myEvent

myEvent allows The Management to upload event information, invite and notify residents through email notification and receive response on the attendance.

myAnnouncement

myAnnouncement allows The Management to quickly announce important news or events which message popup when residents first browse or login to the portal.

myMarketplace

It is a place for residents come to discover, buy and sell items among the condo community.

myForm

Create online survey form such as

- Registration Form
- Survey Form
- Feedback Form
- Q&A Form etc., and gather feedback & formulate better plans to serve the residents.

myMove

myMove is an online House Moving application where owner can submit anytime 24/7 and condo manager will be notified through email alerts for incoming applications, register the application with refundable deposit payment and manage MOVE-IN / MOVE-OUT units.

myReport

myReport keeps reports of Facility Booking Collection, Booking Statistics and other reports made available to The Management Council.

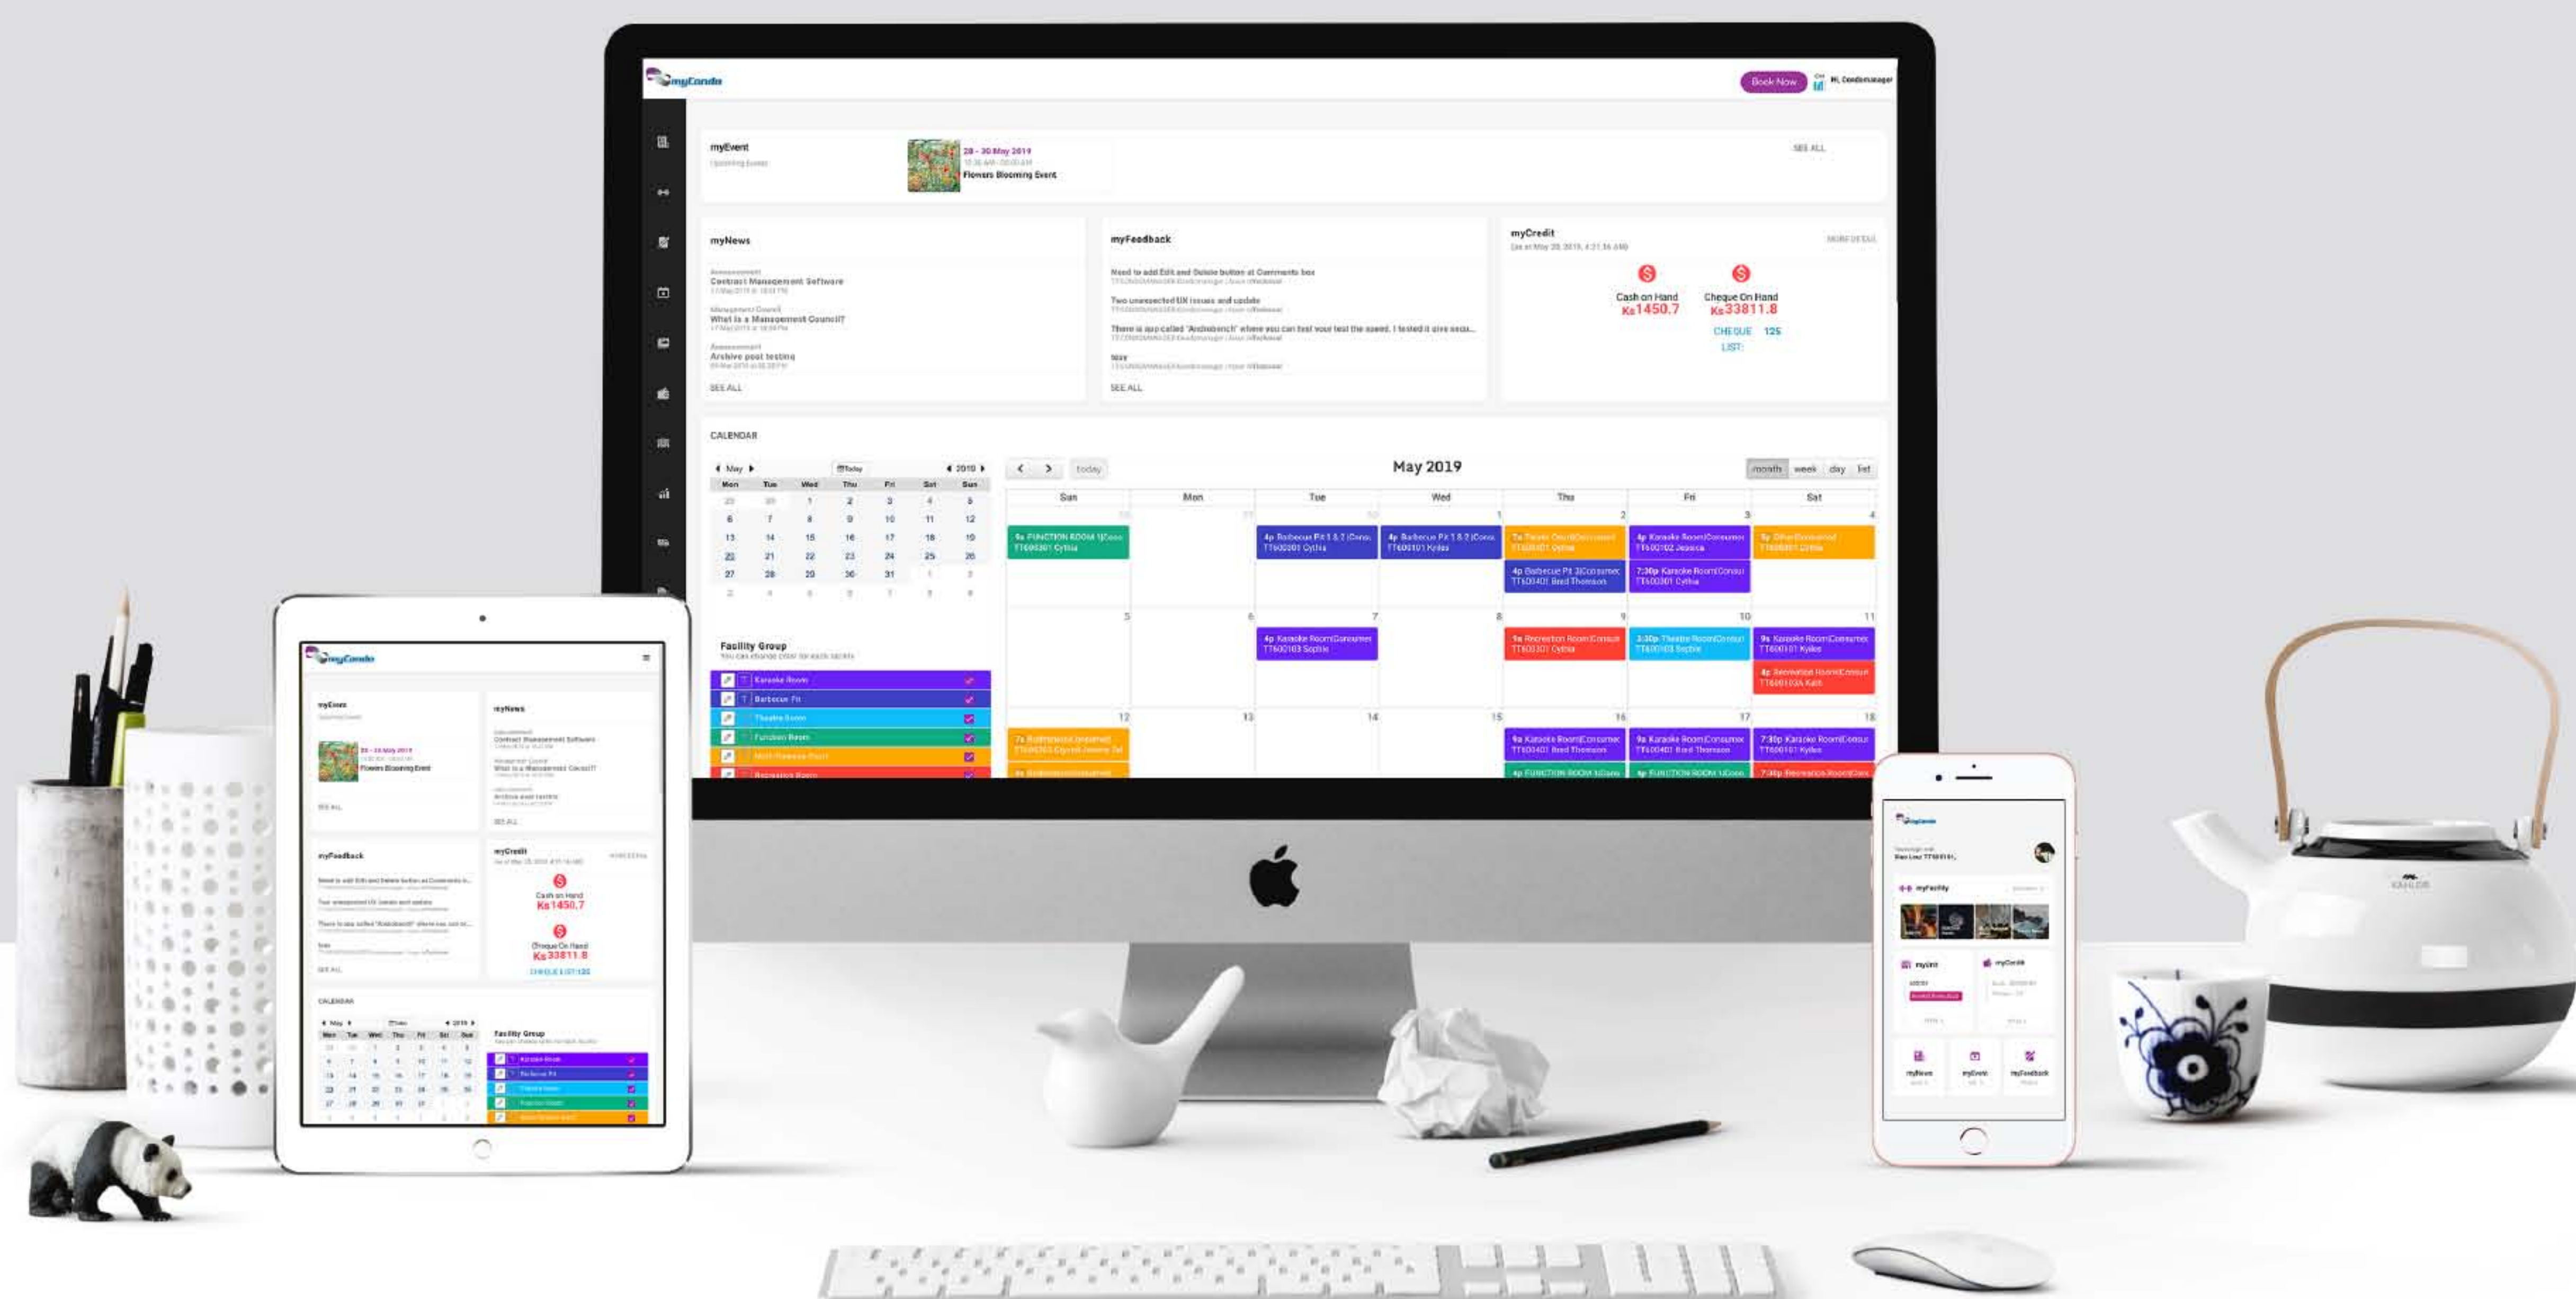

myCouncil

myCouncil allows setting up of The Management Council Sub-Committee members tied to members' Residential Unit. Role Group "MC Member" can have special access rights to access Facility Booking Collection Reports, Facility Booking Statistics and any other modules deemed in the interest of the Management Council.

mySupplier

mySupplier keeps track of Contracts, Warranties & Sitework Schedules with auto reminder notification prior to expiry of Contracts & Warranties.
